PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided **technical assistance** and support for **macOS-based hardware and software**, troubleshooting issues and installing/maintaining systems for an average of **15 users per day**.
- Installed, configured, and upgraded **macOS, software applications, and drivers**, including deployment and management of devices using **Mobile Device Management (MDM) solutions**.
- Responded to an average of **25 support requests** per week via phone, email, and in-person, diagnosing and resolving **hardware, software, and network issues**.
- Documented and tracked issues and resolutions in a **ticketing system**, contributing to a knowledge base that reduced average resolution time by **18%**.
- Collaborated with other IT team members to resolve complex issues, escalating tickets as necessary and providing detailed diagnostic information.
- Created and maintained user guides and FAQs, supporting self-service troubleshooting and enhancing user productivity for common software applications.
- Managed and maintained an inventory of over **200 hardware and software resources**, ensuring accurate tracking and compliance with licensing agreements.

SKILLS

Operating Systems – macOS, Windows, Linux

Hardware Support – Desktop Support, Laptop Support, Mobile Devices, Peripherals

Software & Network Support – Application Installation, Configuration, Troubleshooting, Network Issues

Tools & Systems – Ticketing Systems, Remote Desktop Applications, Mobile Device Management (MDM), JAMF

Documentation & Training – User Guides, FAQs, Knowledge Base Articles

PROJECTS

User Support & System Deployment for Enterprise Rollout

- Deployed and configured new **macOS laptops** and associated software for over **50 employees** during a company-wide hardware refresh.
- Provided **post-deployment technical assistance** to users, resolving setup issues and ensuring seamless integration into the corporate network.
- Developed a **step-by-step guide** for new user onboarding, covering essential software installation and basic troubleshooting, adopted by the wider support team.

IT Asset Management & Knowledge Base Enhancement

- Managed the inventory of **desktop hardware and software licenses**, tracking assets through their lifecycle using a dedicated tracking tool.
- Authored and updated **knowledge base articles** for common macOS software issues, leading to a **22% increase** in self-service ticket deflection.
- Assisted in the evaluation and implementation of a new **ticketing system** to improve workflow efficiency and ticket tracking accuracy.
