+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Coordinated digital and AI project lifecycles from initial requirements gathering through implementation and user adoption, ensuring alignment with business objectives.
- Translated complex business needs into actionable requirements, prioritised backlogs, and clear acceptance criteria for product and AI engineering teams.
- Facilitated cross-functional collaboration between business stakeholders, product teams, and AI engineers to deliver new AI-enabled use cases.
- Established and refined delivery processes, including project intake, agile workflows, governance checkpoints, and approval procedures.
- Managed project priorities, timelines, dependencies, budgets, and risks by applying agile methodologies and best practices.
- Coordinated user acceptance testing, launch readiness activities, compliance reviews, and user adoption strategies for new system implementations.
- Designed and implemented **Java Spring Boot** REST APIs for cross-service data exchange, incorporating request validation and circuit-breaker patterns.

SKILLS

Project Management – Agile Methodologies, Project Delivery, Requirements Gathering, Stakeholder Coordination, Risk Management, Budget Management, Backlog Prioritization, Acceptance Criteria, Testing Coordination, User Adoption

AI / ML Concepts – AI Projects, AI Engineers, AI Use Cases, Digital Transformation, Machine Learning Fundamentals

HR Technology – HR Systems, Workday, ServiceNow

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS, Docker, Jenkins, Git

PROJECTS

HR Digital Transformation Initiative

- Led the planning and execution of a digital transformation project focused on enhancing HR systems, translating business requirements into technical specifications for AI engineers.
- Managed project timelines and dependencies using **Agile** practices, coordinating UAT and adoption phases with HR stakeholders to ensure seamless integration.
- Developed a **Python** script to automate data migration validation from legacy HR systems to the new platform, reducing manual effort by an estimated **40%**.

AI-Powered Employee Onboarding System

- Designed and documented requirements for an AI-enabled employee onboarding system, working closely with product teams and HR business stakeholders.
- Coordinated the testing and deployment of new features, ensuring adherence to compliance and data privacy standards within the **Workday** integration context.
- Mapped out user workflows and acceptance criteria, facilitating feedback sessions with end-users to drive continuous improvement of the onboarding experience.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
