PROFESSIONAL EXPERIENCE — 3.5+ YEARS

Trust & Safety Agent — Accenture, Dublin, Ireland Jul 2026 – Present

- Review user-generated content and account reports against **community standards** and policies for a large-scale online platform.
- Investigate escalated abuse cases, including harassment, hate speech, scams, and graphic content, applying precise judgment.
- Document enforcement decisions and emerging abuse trends, ensuring accurate record-keeping for policy violations.
- Achieve defined quality-audit, calibration, accuracy, and productivity targets for content review and **policy enforcement**.

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed Java Spring Boot features and REST APIs, implementing rule-based validation for data integrity.
- Wrote Python scripts for data pipelines and ETL, supporting anomaly detection and scheduled reporting.
- Executed SQL queries for data validation and schema changes, ensuring accuracy in financial transaction data.
- Managed production support for financial services applications, responding to P1/P2 incidents under strict SLAs.
- Monitored enterprise applications using Splunk and CloudWatch, identifying and triaging system alerts.
- Documented incident responses and supported operational alerting for failed or stuck payment messages.
- Collaborated with operations and business analysts on requirements, UAT, and post-implementation triage for system integrations.

SKILLS

Content Moderation – community standards, policy enforcement, content review, escalations, risk assessment.

Language Analysis – clarity, natural phrasing, contextual fit, voice quality, written explanation.

Technical Skills – Python, Java, SQL, Spring Boot, REST APIs, AWS, Docker, Linux, Git, Jenkins, Splunk, Power BI, Tableau, R.

Data Analytics – data pipelines, ETL, data validation, statistical analysis, A/B testing, machine learning fundamentals.

Operations – incident response, SLA management, change-control management, audit trails, regulatory awareness.

Collaboration – cross-functional teams, business analysts, UAT support, stakeholder communication.

PROJECTS

Financial Transaction Anomaly Detection (MSc Data Analytics)

- Developed Python scripts using pandas and scikit-learn to analyze transaction data for suspicious patterns.
- Created Power BI dashboards to visualize identified anomalies and communicate findings to stakeholders.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)

- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
