PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Collaborated with internal planning teams and external factories to ensure daily operational continuity, process development, and problem-solving for supply chain initiatives.
- Monitored and managed factory and supply chain capacity constraints by optimizing finished goods flow, ensuring supply continuity for key product lines.
- Reviewed purchase order performance and ERP planning data, identifying and resolving discrepancies to maintain accurate inventory levels and delivery schedules.
- Developed and presented predefined key analytics reports using **Power BI** and **advanced Excel** to support planning decisions and identify areas for continuous improvement.
- Contributed to the Integrated Business Planning (IBP) process through Supply Review, focusing on process enhancement and development within the supply chain.
- Managed factory relationships and represented Supply Planning in cross-functional meetings to drive performance improvements and build long-term partnerships.
- Analyzed supplier processes and product specifications, maintaining strong knowledge of product lines, customer needs, and business requirements to inform planning strategies.

SKILLS

Supply Chain – Supply and Demand Planning, Operations, Factory Performance, On-Time Delivery, Process Improvement, Supply Chain Capacity, Finished Goods Flow, Supply Continuity, Purchase Order Performance, ERP Planning Data, Supplier Management, Business Needs

Analytics & Tools – Power BI, Advanced Excel, Business Intelligence, Data Analytics, Data Modelling, Data Visualisation, DAX, Power Query

Software & Systems – ERP Solutions, SAP (implied by ERP context)

Methodologies – Agile, Scrum, Continuous Improvement, Integrated Business Planning (IBP)

Communication – Cross-functional Collaboration, Stakeholder Management, Presentation Skills

PROJECTS

Supply Chain Analytics Dashboard

- Developed an interactive **Power BI** dashboard to visualize key supply chain metrics, including factory output, lead times, and on-time delivery rates for over 50 product SKUs.
- Designed and implemented custom **DAX measures** and **Power Query** transformations to clean and aggregate data from multiple ERP system exports, enabling more accurate reporting.
- Presented the completed dashboard to the wider Supply Chain team, facilitating data-informed decision-making and identifying bottlenecks in the production planning process.

Production Planning Data Optimization

- Automated the generation of weekly production planning reports using **Python** and **Pandas**, reducing manual effort by approximately 15 hours per week for the planning team.
- Performed data validation and reconciliation on **SQL** database entries related to inventory levels and production forecasts, ensuring data integrity across systems.
- Assisted in troubleshooting data discrepancies within the **ERP** system, collaborating with operations teams to resolve issues impacting planning accuracy.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
