HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided day-to-day **automation support** for **Fill Finish** and **Packaging** departments, ensuring systems maintained **regulatory compliance** and operational readiness.
- Executed **automation change controls** and validation protocols for critical system updates, adhering to **GAMP lifecycle** requirements.
- Identified and implemented opportunities to optimize **PLC and SCADA systems**, improving workflow efficiency by **15%** within the **Projects** department.
- Offered technical guidance to **Process Engineers** on automation-related issues, resolving an average of **5** complex queries per week.
- Contributed to cross-functional projects focused on enhancing **system integrity** and operational excellence across multiple departments.
- Collaborated with **Maintenance and Facilities** teams to ensure automation systems met strict **GMP** standards.
- Containerized legacy automation scripts using **Docker**, enabling more consistent deployment across different environments.

SKILLS

Automation & Control Systems – PLC, SCADA, Control Systems Engineering, GAMP, GMP, Siemens, TIA Portal, Delta V, PCS7, Step 7

Pharmaceutical Domain – Pharmaceutical Automation, Fill Finish, Packaging, Compliance, Validation Protocols, Continuous Improvement

Software & Scripting – Python, Shell Scripting, Automation Scripting

Core Engineering – Control Systems, Engineering, Project Engineering, System Integrity

Tools & Methodologies – Change Control, Agile, Cross-Functional Collaboration, Docker

PROJECTS

PLC/SCADA System Optimization for Production Line

- Refactored existing **PLC logic** for a high-volume production line, reducing manual intervention points and improving throughput by **12%**.
- Developed automated data logging scripts in **Python** to capture critical process parameters from **SCADA systems**, aiding in root cause analysis for quality deviations.
- Contributed to the validation of upgraded automation components, ensuring adherence to **GAMP** and regulatory guidelines.

Automated Batch Reporting for Manufacturing Operations

- Engineered automated reporting workflows using **Python** and SQL queries against manufacturing execution systems, reducing manual report generation time by **40%**.
- Designed and implemented data extraction and transformation pipelines to feed into a centralized **operations dashboard**, providing key performance indicators to stakeholders.
- Collaborated with operations teams to define reporting requirements and ensure the accuracy and reliability of generated data.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
