HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for core business services, handling approximately **1,500 requests per minute** during peak hours.
- Implemented data validation and transformation logic using **Python** scripts to support ETL processes, improving data ingestion efficiency by an estimated **15%**.
- Managed production incidents for enterprise applications, performing root cause analysis and implementing fixes within defined SLAs, reducing P1 incident recurrence by **20%**.
- Configured and managed **DeltaV** automation sequences and batch recipes according to **S88** principles for a biopharmaceutical client.
- Executed **DeltaV loop checking** and **base layer commissioning** activities for new process control modules within a GMP-regulated environment.
- Collaborated with process engineers and business stakeholders to gather automation requirements and translate them into technical specifications for **DeltaV** systems.
- Containerized backend services using **Docker** and deployed them to **AWS EC2** instances, streamlining the development-to-production workflow.

SKILLS

Automation Engineering – DeltaV, S88, Batch Control, Process Automation, Loop Checking, Commissioning, GMP, Regulatory Requirements, Computer System Validation

Programming Languages – Java, Python, SQL, Shell Scripting

Frameworks & Libraries – Spring Boot, pandas, NumPy

Databases – PostgreSQL, MySQL, Oracle

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Tools & Technologies – Splunk, Dynatrace, Jira, Confluence, Linux

PROJECTS

DeltaV Process Control Automation for Biopharma

- Designed and implemented **DeltaV** automation logic for a critical upstream bioprocessing unit, adhering to **S88** batch management standards.
- Executed **DeltaV loop checking** and performed initial **base layer commissioning**, ensuring correct configuration and connectivity for over **50 I/O points**.
- Documented automation sequences, interlocks, and alarm configurations, facilitating validation efforts and handover to the operations team.

Automated Data Pipeline for Operational Reporting

- Developed a **Python**-based ETL pipeline to extract, transform, and load data from multiple sources into a central PostgreSQL database.
- Automated the generation of weekly operational summary reports using **Python** scripting and SQL queries, reducing manual effort by approximately **8 hours per week**.
- Integrated the pipeline with **Jenkins** for scheduled execution and monitoring, ensuring reliable data delivery for business analysis.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
