# HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Engineered **Java Spring Boot** REST APIs for inter-service communication, incorporating **circuit breaker patterns** and robust error handling.
- Developed and maintained **Hibernate** entities and performed complex **SQL** queries across **PostgreSQL** and **Oracle** databases to support enterprise system integrations.
- Designed and implemented **JUnit** test suites and employed **Mockito** for unit testing of Java components, ensuring code quality and maintainability within a **Maven** build environment.
- Investigated, documented, and implemented new product and process technologies of moderate complexity, adhering to standard **quality management** and production system methodologies.
- Applied standard **data analysis** practices and techniques to establish root cause for product and process failures, observing processes to recognize discrepancies and trace them through detailed steps.
- Collaborated with experienced engineers to select and apply standard engineering techniques, procedures, and criteria for adaptations and modifications to existing products and processes.
- Containerized microservices using **Docker** and deployed them to **AWS EC2** instances, managing configurations and basic resource allocation.

## SKILLS

**Programming Languages** – Java, Python, SQL, R, PL/SQL

**Frameworks & Libraries** – Spring Boot, Hibernate, JPA, Spring MVC, JUnit, Mockito, pandas, NumPy, scikit-learn, Flask, FastAPI

**Databases** – PostgreSQL, Oracle, MySQL, SQL Server

**Cloud & DevOps** – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

**Tools & Platforms** – Power BI, Tableau, Splunk, Dynatrace, Jira, Confluence, Linux

**Data Analytics & BI** – Data Modelling, ETL, DAX, Power Query, Statistical Analysis, Time-Series Analysis, Business Intelligence

## PROJECTS

### Enterprise Java Application Support & Enhancement

- Provided production support for critical **Java Spring Boot** applications, resolving P1/P2 incidents and managing SLAs using **Splunk** and **Dynatrace** for monitoring.
- Developed automated Python scripts for data validation and scheduled reporting, processing approximately 15,000 records daily to support operational workflows.
- Performed schema modifications and data integrity checks in **PostgreSQL** databases, ensuring data consistency across interconnected enterprise systems.

### MSc Applied Data Analytics Project: Sales Performance Dashboard

- Designed and developed an interactive **Power BI** dashboard visualizing key sales metrics, including revenue trends, product performance, and regional breakdowns, for business stakeholders.
- Extracted, transformed, and loaded data from multiple sources using **Power Query** and applied **DAX** measures to create complex analytical calculations and aggregations.
- Conducted exploratory data analysis using **R** to identify correlations between marketing spend and sales performance, informing strategic decision-making for the marketing team.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
