PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Installed, configured, and upgraded **IT equipment** and software across ~150 user endpoints, ensuring timely deployment for new hires.
- Administered desktops and laptops, performing installation and testing of **Windows 11** and **M365 applications**, resolving over 50 tickets per week.
- Provided on-site technical support, diagnosing and resolving **hardware and software issues** for end-users, achieving an average resolution time of 4 hours for critical incidents.
- Logged support calls in a **ticketing system**, meticulously documenting outcomes to facilitate the resolution of common queries and build a knowledge base for the support team.
- Managed and resolved escalated P1/P2 incidents for enterprise Java applications, adhering to strict **SLA management** and performing root cause analysis using **Splunk** and **Dynatrace**.
- Automated routine system administration tasks using **Python scripting**, reducing manual effort for log analysis and report generation by approximately **30%**.
- Maintained and supported interconnected enterprise systems, including ERP modules, coordinating change-control management and UAT for system configuration updates.

SKILLS

Operating Systems – Windows 11, Linux

Productivity Software – M365, Outlook, Exchange, Microsoft Teams

Hardware Support – Computers, Printers, Laptops, Smart Phones

IT Support Tools – Ticketing System, Jira, Confluence

Security – Anti-Virus, Encryption

Programming & Scripting – Python, Java, SQL

Cloud & Virtualization – AWS, Docker

PROJECTS

Enterprise Endpoint Deployment and Support

- Managed the end-to-end deployment of new **laptops** and **desktops** for a user base of over 100 employees, including hardware setup and initial software configuration.
- Developed **Python scripts** to automate the installation of common applications and security agents, reducing manual deployment time by **40%** per machine.
- Provided direct technical support for **Windows 11** and **M365** issues, troubleshooting connectivity, application errors, and printer problems for the finance and operations teams.

Production Systems Monitoring and Automation

- Supported production Java and .NET enterprise applications, performing incident response for P1/P2 issues using **Splunk** and **Dynatrace** to ensure system availability.
- Automated data extraction and reporting tasks for operational teams using **Python** and **SQL**, generating daily summaries that aided in transaction monitoring.
- Contributed to change management processes for production systems, assisting with UAT coordination and post-go-live issue triage on interconnected platforms.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
