HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and maintained **Cisco routers** and switches as part of network infrastructure upgrades, addressing configuration issues to ensure seamless operation.
- Managed firewall configurations and resolved load balancing issues for a global financial institution's European hub, ensuring secure and efficient network traffic.
- Participated in the **Threat Analysis and Prioritisation team**, scanning systems for vulnerabilities and generating tickets for remediation actions.
- Performed vulnerability assessments across **Windows and Linux platforms**, identifying and documenting security weaknesses for cross-functional teams.
- Developed **Python scripts** to automate routine network security tasks, reducing manual effort and improving response times for security alerts.
- Contributed to the creation and upkeep of **network infrastructure documentation**, detailing configurations, upgrade procedures, and security policies.
- Participated in an on-call troubleshooting rotation, responding to and resolving critical network and security incidents under tight SLAs.

SKILLS

Networking – Cisco Routers, Switches, Firewalls, Load Balancing, DNS

Security – Vulnerability Assessment, Threat Analysis, Network Security, Linux Security, Windows Security

Operating Systems – Linux, Windows

Automation – Python, Bash, PowerShell

Cloud & Infrastructure – AWS, EC2, S3, Lambda, CloudWatch, Docker

DevOps & CI/CD – Jenkins, Git, Jira, Confluence

PROJECTS

Network Infrastructure Security Hardening

- Enhanced security posture across enterprise network infrastructure by implementing stricter firewall rules and access controls for critical systems.
- Developed automated scripts using **Python and Bash** to audit firewall configurations and identify deviations from security policy, reducing manual audit time by 40%.
- Documented new security protocols and deployment guides for network devices, facilitating smoother integration into the production environment.

Vulnerability Management Automation

- Built an automated workflow using **Python and Linux shell scripting** to regularly scan servers for known vulnerabilities and generate prioritized remediation tickets.
- Integrated scanning tools with ticketing systems to streamline the vulnerability management process, improving the average time-to-ticket by 30%.
- Collaborated with operations teams to validate findings and ensure accurate reporting of system vulnerabilities.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
