PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided first-line application and technical support for insurance software platforms, resolving approximately **40 tickets per week** via a ticketing system.
- Delivered technical training sessions on insurance platforms to new and existing clients, successfully onboarding **15+ client users** per quarter.
- Managed general IT support tickets, including setup of new starters' laptops, accounts, and applications, ensuring **95% ticket resolution within SLA**.
- Troubleshot user, software, and access issues for internal and external users, escalating complex problems to senior support teams and documenting resolutions.
- Assisted with software testing for new product releases, contributing to the identification and resolution of **over 30 critical bugs** prior to deployment.
- Supported internal users with **Microsoft 365** and general IT queries, maintaining efficient daily operations.
- Maintained and supported internal IT infrastructure, including basic administration of **Microsoft Intune** and **Azure** environments for user access and device management.

SKILLS

IT Support – Ticketing Systems, Application Support, Technical Support, User Support, Access Management, Escalation

Cloud Platforms – AWS, Azure, Microsoft Intune

Productivity Suites – Microsoft 365, Microsoft Office

Programming & Scripting – Python, Java

Databases – SQL, PostgreSQL, MySQL, Oracle

Development Tools – Git, Jenkins, Docker, Jira, Confluence

Operating Systems – Linux, Windows

PROJECTS

Client Onboarding & Training Platform

- Developed a comprehensive training module for a new insurance client, detailing core platform functionalities and common workflows.
- Created interactive documentation and quick-start guides that reduced onboarding time for new client users by an estimated **20%**.
- Provided direct technical support and Q&A; sessions for a pilot group of 10 client stakeholders during their initial platform adoption phase.

Internal IT Support Automation

- Automated new starter IT setup procedures using **Python scripting**, reducing manual configuration time by approximately **3 hours per new hire**.
- Developed a simple ticketing system interface using **Flask** and **SQLAlchemy** to track and manage internal IT requests more efficiently.
- Implemented basic logging and monitoring for the automation scripts using **AWS CloudWatch** to ensure reliability.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
