PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for enterprise systems, handling approximately **1,500 requests per minute** during peak load.
- Implemented data processing and automation scripts in **Python**, reducing manual effort for recurring reporting tasks by an estimated **15 hours per week**.
- Managed production incidents for enterprise applications using **Splunk** and **Dynatrace**, achieving a **98%** resolution rate within SLA targets for P1/P2 issues.
- Designed and deployed a **Java Hibernate**-backed service for managing user profiles, ensuring data integrity across **50,000+** records.
- Contributed to an integrated ERP support team, coordinating **change-control management** for system configuration updates affecting multiple interconnected business platforms.
- Built and executed **SQL** queries and scripts for data validation and ad-hoc analysis across **PostgreSQL** and **MySQL** databases, supporting business analyst requirements.
- Containerized several backend services using **Docker**, facilitating consistent deployment across development and staging environments on **AWS EC2**.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Hibernate, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Tools & Technologies – Docker, Jenkins, Git, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau

Methodologies – Agile, Scrum

PROJECTS

Enterprise System Integration Layer (HCL Technologies)

- Developed a **Java Spring Boot** microservice to expose data from internal ERP modules via **REST APIs**, enabling integration with downstream operational platforms.
- Implemented data transformation logic using **Python** to reconcile disparate data formats between legacy systems and the new integration layer, ensuring data consistency for **10,000+** daily transactions.
- Wrote comprehensive unit tests with **JUnit** and integrated the service into the existing **Jenkins** CI/CD pipeline for automated builds and deployments.

Data Analytics Dashboard for Operational Metrics (MSc Project)

- Designed and built interactive **Power BI** dashboards to visualize key operational performance indicators derived from multiple data sources.
- Developed **DAX measures** and complex data models within Power BI to support analytical queries and provide actionable insights for business stakeholders.
- Utilized **Power Query** to extract, transform, and load data from relational databases and flat files, creating a clean dataset for reporting.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
