PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed production incidents for enterprise applications, performing root cause analysis and implementing fixes within strict SLA targets for a financial-services client.
- Developed Python scripts to automate data extraction, transformation, and loading processes for scheduled operational reporting, reducing manual effort by approximately 15 hours per week.
- Wrote and optimized SQL queries against PostgreSQL and Oracle databases for data validation and ad-hoc reporting, supporting business analysts and operations teams.
- Designed and implemented REST APIs using Java Spring Boot to facilitate data exchange between internal services and client-facing applications, improving system interoperability.
- Analyzed discrepancies in logistics bills and insurance premiums, identifying data inconsistencies and initiating resolution workflows to ensure timely receivables collection.
- Proposed and assisted in the implementation of system function optimizations within settlement processes, focusing on enhancing settlement efficiency and accuracy.
- Containerized Java Spring Boot applications using Docker, deploying them to an AWS EC2 environment and configuring basic resource limits for predictable performance.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics Tools – Power BI, Tableau, DAX, Power Query

Methodologies & Tools – Agile, Scrum, Jira, Confluence, Splunk, Dynatrace

PROJECTS

Financial Operations Automation Suite (HCL Technologies)

- Developed Python scripts to automate the reconciliation of financial transaction data from multiple sources, reducing manual processing time by an estimated 20%.
- Built a Java Spring Boot microservice to process and validate inbound payment messages, integrating with an existing financial operations dashboard for real-time monitoring.
- Designed and implemented automated data quality checks and exception reporting using SQL and Python, flagging over 500 potential data anomalies weekly for review.

Enterprise Systems Integration & Reporting (HCL Technologies)

- Created interactive Power BI dashboards to visualize key operational metrics for ERP system integrations, enabling management to track settlement performance and identify bottlenecks.
- Supported change control processes for enterprise systems, coordinating UAT and post-go-live support for system configuration updates across interconnected platforms.
- Generated regular reconciliation reports using SQL and R, providing data-driven insights that informed process improvement suggestions for accounts receivable management.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
