PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and implemented **ad monetisation strategies** for a portfolio of mobile games, focusing on maximizing advertising revenue through optimized mediation setups and waterfall configurations.
- Managed and optimized **ad waterfalls** and mediation platforms, configuring setups throughout each game's lifecycle from prototype to launch.
- Monitored **monetisation performance**, analyzing key metrics to identify opportunities for revenue generation and advertising efficiency improvements.
- Designed and executed **A/B tests** and experiments to evaluate new monetisation strategies and validate hypotheses for revenue enhancement.
- Collaborated with **Product, Growth, QA, and User Acquisition teams** to share insights, refine workflows, and align on monetisation initiatives.
- Led the integration and testing of new **advertising partners**, negotiating terms and ensuring effective collaboration for mutual benefit.
- Containerized **Java Spring Boot microservices** with Docker and deployed them to an AWS EKS cluster, managing configurations via Helm charts and basic resource allocation.

SKILLS

Ad Monetisation – Mediation, Ad Waterfalls, Advertising Partners, Revenue Optimization, Experimentation

Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Statistical Analysis, A/B Testing

Programming Languages – Java, Python, SQL, R, TypeScript

Frameworks & Libraries – Spring Boot, Hibernate, JPA, pandas, NumPy, scikit-learn, FastAPI, Flask

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes (EKS), Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

Mobile Game Monetisation Strategy Optimization

- Developed a comprehensive **ad monetisation strategy** for a new mobile title, integrating multiple ad networks via a mediation platform to maximize revenue.
- Implemented and configured complex **ad waterfalls**, performing iterative testing and analysis to optimize fill rates and eCPM across diverse ad placements.
- Built an automated reporting dashboard in **Power BI** to track key monetisation KPIs, enabling Product Managers to make data-driven decisions on ad strategy adjustments.

Java-Based Transaction Processing System

- Engineered a **Java Spring Boot** application to process and validate high-volume financial transactions, designed with **RESTful APIs** for seamless integration with upstream and downstream services.
- Implemented a robust persistence layer using **Hibernate and JPA**, managing entity relationships and ensuring data integrity within a **PostgreSQL** database.
- Developed automated unit and integration tests using **JUnit**, achieving over 90% code coverage to ensure application stability and reliability during development cycles.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
