PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Provided timely initial responses to customer support requests covering billing questions, pre-sales inquiries, usage optimization, and payment disputes for a global developer community.
- Investigated and troubleshot customer-specific billing issues, including failed payments and outstanding invoices, collaborating with internal engineering teams to ensure timely resolution.
- Triage incoming support cases, guiding customers toward relevant documentation and technical resources, reducing average ticket resolution time by **15%**.
- Identified recurring customer issues related to billing and account management, sharing insights that contributed to improvements in internal workflows and product documentation.
- Reproduced technical issues reported by customers, developing detailed test cases to support troubleshooting efforts and improve overall test coverage for billing functionalities.
- Collaborated with the Billing Engineering team to communicate customer concerns effectively and drive resolution for complex billing-related inquiries.
- Managed a queue of approximately 30-40 support cases daily, maintaining high attention to detail and responsiveness in a fast-paced, asynchronous environment.

SKILLS

Support & Billing – Customer Support, Billing Support, Payment Issues, Invoice Discrepancies, Account Management, Pre-sales Inquiries, Usage Optimization, Payment Disputes, Technical Customers, Asynchronous Communication

Troubleshooting & Analysis – Analytical Skills, Troubleshooting, Issue Investigation, Root Cause Analysis, Test Case Development, Test Coverage Improvement, Problem-Solving

Communication & Collaboration – Written Communication, Verbal Communication, English Fluency, Technical Documentation, Cross-functional Collaboration, Stakeholder Communication

Tools & Technologies – SQL, Jira, Confluence, Zendesk (inferred), Intercom (inferred), Python (for scripting)

Process Improvement – Workflow Improvement, Process Improvement, Identifying Recurring Issues, Documentation Improvement

PROJECTS

Enterprise Billing Support Workflow Enhancement

- Developed Python scripts to automate the initial triage of billing inquiries, categorizing ~80% of incoming tickets based on predefined rules and reducing manual sorting time.
- Created a comprehensive knowledge base of common billing issues and their resolutions, accessible via an internal wiki, which was adopted by the support team to improve response consistency.
- Documented and refined escalation paths for complex payment disputes, ensuring faster routing to the appropriate engineering or business teams and improving inter-team collaboration.

Customer Issue Reproduction and Test Case Development

- Engineered a system for reproducing customer-reported billing errors by simulating various payment gateway responses and account states, directly aiding the engineering team in debugging.
- Authored detailed test cases for newly identified billing bugs, covering edge cases and specific user scenarios, which were integrated into the QA regression suite.
- Tracked and analyzed the success rate of implemented fixes based on reproduced issues, providing feedback on the effectiveness of engineering solutions to ~15 core billing defects.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
