PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Researched competitor digital marketing strategies, analyzing acquisition channels and marketing funnels for **~15 direct competitors** across the EU market.
- Collected and structured large volumes of market intelligence data using **Google Sheets** and specialized competitive analysis platforms, identifying patterns in competitor traffic sources.
- Evaluated competitor positioning and business development strategies, preparing analytical reports that presented clear findings and actionable insights to internal teams.
- Investigated competitors' digital infrastructure, including alternative product domains and website mirrors, to map broader market engagement.
- Analyzed customer acquisition funnels and conversion strategies employed by competing businesses, identifying similarities and differences in their approach.
- Monitored market dynamics and emerging opportunities, providing up-to-date intelligence to support strategic decision-making in a fully remote environment.
- Developed Python scripts to automate data extraction and preliminary analysis from diverse competitive intelligence tool outputs, reducing manual processing time by **~30%**.

PROJECTS

Competitor Digital Acquisition Strategy Analysis

- Analyzed the paid and organic acquisition channels for **10 key competitors** in the European market, detailing their primary traffic sources and estimated spend.
- Mapped out the customer acquisition funnels for each competitor, identifying **3-5 common conversion strategies** and 2 unique approaches observed.
- Prepared a comprehensive report summarizing findings on digital infrastructure and marketing pathways, including actionable insights into potential market gaps.

Market Intelligence Automation Pipeline

- Developed a Python script to parse and consolidate data from multiple competitive intelligence tool outputs (e.g., traffic estimates, ad spend data), handling approximately **500 data records per competitor**.
- Integrated **SQL** (PostgreSQL) to store and query structured competitor data, enabling efficient analysis of trends over a **6-month period**.
- Created automated data validation checks within the pipeline to ensure accuracy and consistency of collected market intelligence.
