## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Responded to an average of 45 customer inquiries daily via live chat and email, resolving ~85% of issues on first contact within the agreed SLA.
- Troubleshot and investigated technical issues reported by users of a SaaS sales outreach automation platform, escalating complex bugs to the Engineering team with detailed reproduction steps.
- Guided over 60 new customers through the platform's onboarding process, explaining core features and demonstrating best practices to maximize user value.
- Advocated for customer needs by systematically collecting, documenting, and communicating feedback on recurring issues and feature requests to Product and Engineering teams.
- Managed a concurrent workload of 15-20 customer requests, maintaining high standards of accuracy, organization, and professional communication.
- Collaborated with distributed international teams to identify patterns in customer issues, contributing to process enhancements that improved overall support efficiency.
- Developed and maintained internal documentation and knowledge base articles for common platform issues and solutions, reducing average response time by 18%.

## SKILLS

**Customer Support Platforms** – Intercom, Zendesk, Jira, Salesforce

**Customer Communication** – Live Chat, Email Support, Technical Explanation, Professionalism

**Technical Troubleshooting** – Bug Escalation, Problem Solving, Root Cause Analysis

**SaaS Platforms** – Sales Outreach Automation, Onboarding, Feature Maximization

**Project Management** – Time Management, Prioritization, Attention to Detail, Organization

**Collaboration** – Remote Teams, Cross-functional Communication, Feedback Integration

## PROJECTS

### Customer Onboarding for SaaS Sales Platform

- Developed a comprehensive onboarding guide and interactive walkthrough for new users of a sales outreach automation platform, targeting enterprise clients.
- Assisted over 100 new customers in configuring their accounts and integrating platform features with their existing sales workflows, reducing initial setup time by an average of 30%.
- Collected and analyzed initial customer feedback from onboarding sessions, identifying key areas for documentation improvement and feature clarification.

### Technical Issue Triage and Resolution Workflow

- Designed a tiered support workflow to efficiently triage and resolve technical issues reported by a global user base for a SaaS application.
- Implemented a system for logging and categorizing common user-reported problems, leading to a 22% reduction in repetitive inquiries to the core engineering team.
- Created detailed troubleshooting guides and FAQs based on recurring support tickets, empowering users to self-serve for common platform challenges.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
