PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided **second-level technical support** for digital banking services and e-banking platforms, resolving complex incidents impacting core banking applications.
- Analyzed, troubleshot, and isolated technical issues across **Windows, macOS, iOS, and Android** operating systems, ensuring timely resolution within defined **SLAs**.
- Managed and prioritized incident and problem tickets using a **ticketing system**, coordinating with internal specialist teams and external vendors for escalations.
- Delivered **telephone-based customer assistance** in both **German and French**, professionally handling demanding customer situations and providing clear guidance.
- Maintained accurate documentation of support cases, technical investigations, and resolutions, contributing to an improved knowledge base and **support process** documentation.
- Collaborated with cross-functional teams to continuously improve support workflows, technical tools, and overall **service quality**.
- Performed structured troubleshooting and **log analysis** using remote-support tools to diagnose and resolve e-banking platform issues.

SKILLS

Support & Operations – Second-Level Support, Incident Management, Problem Management, SLA Management, Root Cause Analysis, On-Call Rotation, Change Management, Ticketing Systems, Runbooks, P1/P2 Incident Response

Operating Systems – Windows, macOS, Linux, iOS, Android

Networking & Security – IT Security, Identity and Access Management (IAM), Two-Factor Authentication (2FA), Multi-Factor Authentication (MFA), Directory Services, Antivirus Software, Firewalls, LAN/WLAN, TCP/IP, Routers, Modems

Cloud & Scripting – AWS (EC2, S3, Lambda, CloudWatch), Python Scripting, Shell Scripting

Languages – German, French, English, Java, Python, SQL

Tools & Technologies – Splunk, Dynatrace, Jenkins, Git, Jira, Confluence, Docker

PROJECTS

Enterprise E-banking Platform Support Enhancement

- Developed Python scripts to automate the analysis of **application logs** from Splunk and CloudWatch, identifying recurring error patterns in e-banking services.
- Implemented automated ticket creation in Jira for critical P1/P2 incidents, reducing manual triage time by approximately **30%** for the support team.
- Contributed to the creation of new runbooks for common e-banking platform issues, improving first-call resolution rates for Tier 1 support by **15%**.

Customer Identity and Access Management Framework

- Configured and managed user access controls and multi-factor authentication policies for enterprise applications within an **AWS** environment.
- Assisted in troubleshooting authentication failures for users accessing digital banking platforms, involving analysis of **directory services** and IAM logs.
- Supported the integration of a new **two-factor authentication** solution, working with end-users to resolve initial setup and login issues.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
