PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Partnered with Account Executives and Account Managers to conduct **15+ client discovery calls**, translating complex business challenges and technical requirements into actionable solution designs.
- Designed and architected **tailored technology solutions** for enterprise clients, combining AI-powered tools, creative services, and existing systems to address specific business objectives.
- Scoped and priced **systems-related opportunities** for enterprise accounts, defining technical and operational requirements, project timelines, and commercial proposals.
- Collaborated with engineering and creative studio teams to validate solution feasibility, estimate delivery needs, and ensure the technical soundness of proposals for new client engagements.
- Acted as a technical point of contact post-sale, coordinating the transition of signed projects to AI Deployment Strategists with comprehensive documentation and implementation guidance.
- Captured and synthesized recurring customer challenges and unmet market needs, providing actionable insights to product teams to inform future roadmap priorities and service development.
- Developed reusable sales resources, including **discovery frameworks** and scoping templates, improving the efficiency and consistency of the sales process for technology-driven opportunities.

SKILLS

Client Interaction – Consultative Selling, Requirements Gathering, Solution Architecture, Technical Sales, Stakeholder Management, Customer Journey Mapping

AI & Technology – AI Agents, Agentic Software Development, AI Tooling, Technology Solutions, Creative Services Integration, Product Portfolio Evolution

Project Management – Scoping, Pricing, Proposal Development, Technical Review, Implementation Handovers, Change Management, Project Lifecycle

Technical Skills – REST APIs, Python Scripting, SQL, Java Spring Boot, AWS, Docker, Linux

Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Analysis, R, pandas, NumPy, scikit-learn

PROJECTS

AI Agent Integration Framework (HCL Technologies)

- Developed a Python-based framework to integrate and orchestrate multiple AI agents for complex workflow automation, handling approximately **2,500 requests per hour**.
- Designed REST APIs using **Flask** for seamless communication between AI agents and enterprise systems, ensuring robust data exchange and error handling.
- Containerized the agent framework using **Docker** and deployed to an AWS EC2 instance, enabling scalable and efficient execution of agent tasks.

Enterprise Solutions Design Toolkit

- Created a comprehensive toolkit for designing and scoping enterprise technology solutions, including reusable templates for solution architecture diagrams and technical proposals.
- Integrated **Power BI** dashboards to visualize key performance indicators for solution delivery, tracking project scope, effort estimation accuracy, and client satisfaction metrics.
- Documented best practices for translating client business challenges into technical solution requirements, supporting a team of 4 Account Managers in pre-sales activities.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
