PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided responsive and empathetic customer assistance via email for an international digital learning platform, resolving an average of 35 inquiries per shift.
- Developed deep knowledge of the platform's cognitive training tools and educational content to troubleshoot user issues, leading to a 15% improvement in First Response Time for my assigned queue.
- Coordinated refund requests and processed transactions through internal payment systems, ensuring accurate record-keeping and adherence to support protocols.
- Gathered detailed information on complex user cases, accurately escalating bug reports and technical issues to the appropriate engineering and product teams.
- Contributed to the refinement of response templates and support workflows, testing new tools and providing feedback to improve customer service efficiency.
- Maintained internal documentation and knowledge base articles, ensuring information accuracy for a team of 8 support agents.
- Managed incoming customer inquiries from a global user base, maintaining a calm and professional demeanor during high-volume periods and sensitive situations.

SKILLS

Customer Support – Email Support, Technical Support, Customer Service, Troubleshooting, Escalation Management, Customer Retention, CSAT, First Response Time, Resolution Time

Technical Aptitude – Digital Products, Issue Diagnosis, Information Gathering, Bug Reporting, Process Improvement

Communication – English Proficiency (B1+), Written Communication, Professionalism, Attention to Detail, Constructive Feedback

Tools & Platforms – Jira, Confluence, Splunk, Dynatrace, AWS CloudWatch, Linux Shell Scripting, Payment Systems

Domain Knowledge – Digital Learning Platforms, Cognitive Training Tools, Educational Content

PROJECTS

Digital Learning Platform Support Enhancement

- Developed and implemented standardized response templates for common customer inquiries on a digital learning platform, reducing average response time by 20% for critical issues.
- Collaborated with the product team to document and reproduce user-reported bugs, contributing to the resolution of approximately 50 critical issues over a 3-month period.
- Assisted in testing new platform features and support tools, providing detailed feedback from a user and support agent perspective to the development team.

Customer Issue Triage and Escalation Workflow

- Designed and documented an improved escalation workflow for complex technical issues, integrating with existing ticketing systems to ensure faster routing to specialized teams.
- Analyzed historical support tickets to identify recurring themes and patterns, informing the creation of targeted troubleshooting guides for end-users.
- Participated in cross-functional meetings to discuss user feedback and prioritize bug fixes and feature enhancements based on support ticket volume and impact.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
