PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for core business services, handling approximately **1,500 requests per minute** under peak load.
- Implemented data persistence logic using **Hibernate** and JPA, ensuring efficient data retrieval and modification for enterprise applications.
- Designed and coded reusable Java components and modules, adhering to **Object-Oriented Principles** and employing **JUnit** for unit testing.
- Contributed to architectural discussions and code reviews for new feature development, ensuring alignment with technical roadmaps and best practices.
- Participated in **sprint planning** and provided technical estimations for backlog items, collaborating with product owners to refine requirements.
- Containerized multiple Java applications using **Docker**, facilitating consistent deployment across development, staging, and production environments.
- Managed and resolved production incidents with P1/P2 severity, performing root cause analysis and implementing corrective actions within defined SLAs.

PROJECTS

Enterprise Java Application Modernization (HCL Technologies)

- Refactored legacy Java modules into a modern **Spring Boot** microservice architecture, improving maintainability and reducing deployment times by **30%**.
- Integrated the new services with existing enterprise systems using **REST APIs** and ensured data consistency through meticulous **Hibernate** ORM configuration.
- Developed comprehensive unit and integration tests using **JUnit** and Mockito, achieving over **85% code coverage** for critical business logic.

Automated Reporting Pipeline for Financial Operations (HCL Technologies)

- Built Python scripts to automate the generation of daily operational reports from relational databases (**PostgreSQL**, Oracle), saving an estimated **8 hours** of manual work per week.
- Developed ETL processes using **pandas** to clean, transform, and aggregate data from disparate sources before loading into a data warehouse for analysis.
- Created interactive **Power BI** dashboards to visualize key performance indicators from the generated reports, providing actionable insights to operations teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021
