PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Gathered and documented detailed business requirements for a new **product development** initiative, translating user needs into actionable user stories for the squad backlog.
- Developed comprehensive **process flows** and use cases to explain functional implementation and drive improvements in user experience for the product squad.
- Ensured each feature deliverable aligned with a clear definition of readiness, staying **2-3 sprints ahead** of the development squad to manage dependencies.
- Applied **business process improvement** methods to optimize existing workflows, contributing to enhanced operational efficiency and measurable outcomes.
- Tracked key **team level metrics** and built reports to measure progress against product vision, facilitating alignment with business needs.
- Supported and facilitated system demos via inspect and adapt workshops, ensuring clear communication of vision to developers and testers.
- Managed dependencies with other squads and worked closely with peer Product Analysts and the Product Manager to align backlog priorities with group needs.

SKILLS

Methodologies – Agile, Scrum, Business Process Improvement, SDLC

Tools – Jira, Confluence, Siemens OpCenter, Mendix, PagerDuty, Datadog, Grafana

Business Analysis – Requirements Gathering, User Stories, Process Flows, Use Cases, UAT, Product Backlog Management, Release Planning, Metric Tracking, System Demos

Technical Skills – SQL, Python, Java, Spring Boot, AWS, Docker, Linux, Git, Jenkins

Data Visualization & BI – Power BI, Tableau, DAX, Power Query

PROJECTS

Product Requirements for Enterprise System Integration

- Translated complex business needs into detailed functional specifications and user stories for a new enterprise system integration project, working directly with business stakeholders.
- Developed detailed **process flows** and use case diagrams to illustrate system interactions and data exchange between interconnected platforms, including **REST APIs**.
- Collaborated with engineering and QA teams to define acceptance criteria and support User Acceptance Testing (UAT), ensuring alignment with confirmed business processes.

Financial Operations Dashboard Enhancement

- Enhanced a **payments operations dashboard** by implementing new **transaction monitoring** features, enabling operations teams to track and alert on failed payment messages.
- Analyzed and documented existing **reconciliation workflows**, identifying areas for improvement and contributing to a more streamlined operational process.
- Supported the development of **audit trails** and reporting mechanisms within the dashboard to meet regulatory and GDPR awareness requirements.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
