+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

## PROFESSIONAL EXPERIENCE — 3.5 YEARS

**Software Engineer — HCL Technologies, Chennai, India** Sep 2021 – Jan 2025

- Analyzed production requirements and forecast volumes to prepare **mid- to long-term labour and resource plans** for a 24/7 operation.
- Scheduled and monitored **labour deployment** against production plans, identifying resource constraints and capacity gaps for corrective action.
- Assessed **labour availability, skill mix, and absence trends** to evaluate performance and inform future production planning decisions.
- Prepared **operational reports and performance metrics**, analyzing variances and trends to support management decision-making.
- Supported **process improvement initiatives** through process mapping and business system testing within an operational environment.
- Coordinated with **Operations and cross-functional teams** to ensure resource availability aligned with forecast production requirements.
- Maintained accurate **planning data** and executed planning controls to support operational reporting and continuous improvement.

## SKILLS

**Planning & Operations** – Production Planning, Resource Planning, Labour Planning, Capacity Planning, Workforce Planning, Operational Efficiency, KPI Analysis, Process Improvement, Process Mapping, Change Management, Continuous Improvement, Supply Chain Principles, Operations Management

**Data Analysis & Reporting** – MS Excel (Advanced), Data Analysis, Trend Analysis, Variance Analysis, Performance Metrics, Operational Reporting, Business Systems, Reporting Tools, Data-Driven Decision-Making

**Core Skills** – Analytical Skills, Problem-Solving, Organizational Skills, Attention to Detail, Adaptability, Independent Work, Stakeholder Coordination, Written and Verbal Communication (English)

**Environment** – 24/7 Production Environment, Fast-Paced Production Environment, Food/Fresh Produce/Manufacturing/FMCG (Desirable)

**Compliance & Legislation** – Working Time Legislation (Desirable)

## PROJECTS

### Production Capacity Planning Enhancement (HCL)

- Developed a Python-based tool to analyze historical production data and forecast future resource needs, integrating with the client's operational database.
- Designed and implemented new data validation checks within the Python script to ensure accuracy of input parameters for capacity planning models.
- Generated automated weekly reports detailing projected labour requirements and potential skill shortages for the upcoming month.

### Operational Reporting Dashboard (HCL)

- Built an interactive dashboard using **Power BI** to visualize key operational metrics, including production volume, resource utilization, and downtime.
- Developed **DAX measures** to calculate variances against planned targets and identify key drivers of deviation.
- Collaborated with operations stakeholders to gather requirements and ensure the dashboard provided actionable insights for decision-making.

## EDUCATION

**M.Sc. Data Analytics — National College of Ireland, Dublin** Feb 2026

**B.E. Computer Science — SNS College of Technology, Coimbatore, India** 2021

## CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
