PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed **complex financial models** and forecasts using Excel, incorporating scenario analysis for potential commercial opportunities and evaluating their impact on projected revenue.
- Analyzed variances between actual financial performance and budget/forecasts across the Foods Division, identifying key drivers and presenting actionable recommendations to improve results to senior stakeholders.
- Evaluated customer investment strategies and promotional spend by calculating **cost-to-serve** metrics, identifying opportunities to optimize marketing budgets and enhance account profitability by approximately 15%.
- Partnered with **Customer Development Teams** to assess commercial viability of Joint Business Plans (JBPs) and track performance against agreed targets, ensuring alignment with divisional financial objectives.
- Provided high-impact **ad hoc analysis** and decision support to finance and non-finance teams, translating complex financial data into clear, compelling insights for strategic planning and business reviews.
- Supported **budgeting, forecasting, and financial planning** processes for the Foods Division, collaborating with cross-functional teams to consolidate financial data and ensure accuracy.
- Containerized financial reporting services using **Docker** and deployed them to an **AWS EC2** instance, enabling more efficient and repeatable deployment cycles for internal stakeholders.

SKILLS

Financial Analysis & Planning – Financial Modelling, Forecasting, Budgeting, Variance Analysis, Cost-to-Serve Analysis, Joint Business Plans (JBPs), Commercial Insights, Stakeholder Management

Data Analysis & Visualisation – Advanced Excel, Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing

Programming & Scripting – Python, SQL, R, pandas, NumPy, scikit-learn

Enterprise Systems – ERP Integration Support, Change Management, REST APIs

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Core Technologies – Java, Spring Boot, PostgreSQL, MySQL, Oracle, Linux, Splunk, Dynatrace

PROJECTS

Financial Planning & Analysis Dashboard Enhancement

- Developed interactive **Power BI dashboards** to visualize key financial performance indicators (KPIs) for the Foods Division, including revenue, profitability, and promotional spend.
- Integrated data from multiple sources using **Power Query** and applied **DAX measures** to create complex calculations for analyzing customer profitability and identifying cost-saving opportunities.
- Collaborated with finance and commercial teams to gather requirements and iterate on dashboard designs, ensuring clear communication of financial insights to non-finance stakeholders.

Automated Financial Reporting Pipeline

- Engineered a **Python**-based data pipeline to automate the extraction, transformation, and loading (ETL) of financial data from various enterprise systems into a central data warehouse.
- Wrote **SQL** scripts to validate data integrity and perform transformations, reducing manual data preparation time for monthly reporting by an estimated 30%.
- Scheduled and monitored automated reports using **Python** scripts and cron jobs on a **Linux** environment, ensuring timely delivery of financial summaries to divisional leads.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
