PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed **inventory levels** across multiple production sites, ensuring adequate stock availability while optimizing for operational efficiency.
- Collaborated with sales and planning teams to ensure timely **customer order fulfilment**, consistently meeting or exceeding service level agreements.
- Analyzed **supply chain data** to assess inventory positions, forecast demand, and identify key trends impacting operational efficiency.
- Engaged with **production teams** to optimize manufacturing processes, balance inventory targets, and ensure efficient resource utilization across factories.
- Served as a central point of contact for **cross-functional collaboration** between operations, sales, and finance, aligning decisions and ensuring functional synergy.
- Resolved critical **supply chain issues** by adapting to variability in raw materials and changing customer demands, maintaining operational continuity.
- Developed **Python scripts** to automate data extraction and reporting for inventory management, reducing manual effort by approximately **15 hours per week**.

SKILLS

Supply Chain Management – Inventory Management, Order Fulfilment, Demand Forecasting, Production Coordination, Quality Assurance

Data Analysis & BI – Data Analysis, Power BI, Tableau, DAX, Power Query, Data Modelling

Programming & Scripting – Python, Java, SQL, R

Databases & Cloud – PostgreSQL, MySQL, Oracle, AWS

Agile & Project Management – Agile Methodologies, Scrum, Jira, Confluence, Change Management

Core Competencies – Numeracy, Attention to Detail, Communication, Problem Solving, Adaptability, Teamwork, Responsibility, Ambition

PROJECTS

Inventory Optimisation for Manufacturing

- Developed **Python scripts** to ingest and process inventory data from disparate sources, enabling more accurate stock level reporting.
- Built interactive **Power BI dashboards** to visualize inventory turnover rates, identify slow-moving stock, and highlight potential stock-outs for production planning.
- Collaborated with operations stakeholders to gather requirements for the dashboard, ensuring it provided actionable insights for **inventory management**.

Customer Order Fulfilment Analysis

- Analyzed **customer order data** using SQL to identify patterns in order volume and delivery times across different product lines.
- Created **Tableau visualizations** to communicate order fulfilment performance metrics to sales and logistics teams, highlighting areas for improvement.
- Contributed to a **cross-functional team** effort to streamline the order processing workflow, aiming to reduce average fulfillment time by **10%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
