PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided first-line technical support to end-users, resolving approximately **35 tickets per week** involving hardware, software, and network connectivity issues across Windows and macOS environments.
- Managed and prioritized a daily queue of **50+ helpdesk tickets** using Jira Service Management, ensuring timely resolution and accurate documentation of all user requests and resolutions.
- Installed, configured, and maintained user hardware and software, including routine system updates, security patching, and hardware upgrades for a fleet of **200+ workstations**.
- Delivered remote assistance to end-users via phone and remote desktop tools, troubleshooting and resolving issues efficiently while maintaining clear communication on status and timelines.
- Educated end-users on IT best practices and common software applications through **scheduled training sessions** and by developing and maintaining user documentation.
- Enforced IT security policies, including user access controls, VPN, and MFA, and educated users on security best practices to minimize organizational risks.
- Collaborated with IT team members to escalate and resolve complex technical issues, contributing to a **15% reduction in average resolution time** for escalated tickets.

SKILLS

Operating Systems – Windows, macOS, Linux

Hardware & Software – PC Maintenance, Software Installation, Configuration, Troubleshooting, Hardware Upgrades

Networking & Security – Network Protocols, VPN, MFA, Firepower, Umbrella DNS, IT Security Policies

Ticketing & Documentation – Jira Service Management, IT Glue, User Training, Knowledge Base Creation

Cloud & Collaboration – AWS (EC2, S3, Lambda, CloudWatch), Docker, Microsoft Teams, ACC/BIM360

Backup & Recovery – Rubrik

PROJECTS

End-User Support Enhancement Initiative (HCL Technologies)

- Developed and implemented a new ticketing workflow in Jira Service Management, which improved the categorization and prioritization of incoming user requests, reducing average response times by **20%**.
- Created a comprehensive knowledge base of common hardware and software issues and their resolutions, enabling end-users to self-serve and reducing repeat support requests by approximately **30%**.
- Assisted in the rollout of new workstation hardware to **50+ employees**, including imaging, configuration, and user setup, ensuring a smooth transition and minimal disruption.

IT Systems Monitoring and Alerting Dashboard

- Configured and maintained operational dashboards using **Splunk and Dynatrace** to monitor the health and performance of enterprise applications, focusing on key metrics for system availability.
- Developed automated Python scripts to parse system logs and generate daily reports on critical incidents and performance anomalies, facilitating faster root cause analysis for P1/P2 issues.
- Collaborated with operations teams to refine alerting thresholds and notification procedures, contributing to a more proactive incident response framework for production environments.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
