PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** REST APIs for internal services, handling an average of **1,500 requests per minute**.
- Implemented data extraction and transformation routines using **Python** and **pandas** to support scheduled operational reporting, processing approximately **50 GB of data** weekly.
- Managed production support for enterprise applications on **AWS** (EC2, S3, CloudWatch) and **Linux** environments, responding to P1/P2 incidents and ensuring SLA adherence.
- Sourced and analyzed **fund performance data** at asset, fund, and investor levels using advanced **Excel** functions and pivot tables, identifying trends for client reporting.
- Collaborated with **Product Teams** and **Investment Deal Teams** to gather requirements and understand strategy nuances for accurate client-facing materials.
- Produced detailed **investment presentations** for client meetings and new fund launch marketing collateral, ensuring high standards of accuracy and clarity.
- Automated data reconciliation processes using **Python scripting**, reducing manual effort by an estimated **20%** and improving data quality for downstream analytics.

SKILLS

Programming Languages – Java, Python, SQL, R, DAX

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics – Power BI, Tableau, Power Query, Data Modelling, Data Warehousing

Tools & Methodologies – Jira, Confluence, Agile, Scrum, Splunk, Dynatrace, Linux

PROJECTS

Financial Operations Dashboard Enhancement (HCL Technologies)

- Enhanced a **Java Spring Boot**-based financial operations dashboard by developing new modules for transaction monitoring and alerting on failed payment messages.
- Wrote **SQL** scripts to validate data integrity and optimize query performance for reporting on reconciliation workflows, reducing ad-hoc query times by **15%**.
- Collaborated with business analysts to refine operational alerting thresholds, improving the team's ability to identify and triage issues within a **GDPR-aware production environment**.

Client Data Reporting Automation

- Developed a **Python** application to automate the aggregation and formatting of diverse client data sources for monthly performance reports.
- Integrated the reporting script with **Power BI**, enabling automated refresh of interactive dashboards for senior stakeholders, reducing manual report generation time by **~30%**.
- Documented the data pipeline and reporting logic, facilitating smoother handovers and knowledge transfer for the client reporting team.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
