HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained data pipelines using **Python** and **SQL** to ingest and transform financial data from various internal sources and external fund administrators, supporting consolidated reporting efforts.
- Designed and implemented **Snowflake** data models and schemas to support a unified financial reporting strategy, improving data accessibility for Finance and Operations teams.
- Created interactive **Power BI** dashboards and reports for senior stakeholders, visualizing key financial metrics and KPIs to enhance decision-making on reporting timeliness and accuracy.
- Collaborated with Finance, Operations, and Technology teams to gather requirements for new financial reporting processes and translate them into technical specifications for BI solutions.
- Managed day-to-day **BAU Finance reporting processes**, ensuring data integrity, implementing robust controls, and identifying opportunities for automation to increase efficiency.
- Contributed to a firmwide initiative to consolidate and modernize financial reporting, participating in design sessions and providing technical input on data integration strategies.
- Containerized reporting services using **Docker** for consistent deployment across environments and managed CI/CD pipelines with **Jenkins** for automated testing and release.

SKILLS

Data Warehousing – Snowflake, Data Modelling, ETL, Power Query

BI & Reporting – Power BI, Tableau, DAX, Dashboards, KPI Definition

Programming & Scripting – Python, SQL, R

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Development Tools – Git, Jenkins, Docker, Jira, Confluence

Financial Domain – Financial Reporting, Fund Administration Data Integration, Management Reporting, Investor Reporting, Regulatory Reporting

PROJECTS

Consolidated Financial Reporting Platform (HCL Technologies)

- Engineered data ingestion and transformation pipelines using **Python** and **SQL** to integrate data from disparate internal systems and external fund administrators into a central staging area.
- Designed and built the core relational data model within **Snowflake**, enabling a unified view of financial data for management and investor reporting purposes.
- Developed a suite of **Power BI** dashboards to track reporting progress, data quality, and process efficiency, presenting insights to cross-functional stakeholders.

Automated Investor Reporting Dashboard (MSc Project)

- Developed a data model in **Power BI** to consolidate investment performance data, fund flows, and key financial ratios from multiple sources.
- Wrote complex **DAX** measures to calculate performance metrics and create interactive visualizations for investor reporting requirements.
- Implemented a standardized reporting template using **Power BI**, reducing manual report generation time by approximately 40% for quarterly investor updates.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
