PROFESSIONAL EXPERIENCE — 3.5+ YEARS

Trust & Safety Agent — Accenture, Dublin, Ireland Jul 2026 – Present

- Review and action user-generated content and account reports against a large-scale online platform's **community standards** and policies.
- Investigate escalated abuse cases, including harassment, hate speech, scams, and inauthentic behaviour.
- Document enforcement decisions and flag emerging abuse trends to inform policy updates.
- Achieve high accuracy and productivity targets through rigorous **content review** and quality calibration.

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed Java Spring Boot features and REST APIs, ensuring accuracy in rule-based validation for financial transactions.
- Wrote Python scripts for data pipelines and reporting, supporting data integrity for audit trails.
- Executed SQL queries for ad-hoc analysis and data validation, aiding in the investigation of transaction anomalies.
- Managed production support for financial-services client applications, responding to P1/P2 incidents under strict SLAs.
- Monitored transaction flows and operational alerting using Splunk and CloudWatch, identifying system issues.
- Documented and escalated incidents via Jira, collaborating with cross-functional teams for resolution.
- Performed log analysis and supported change management for enterprise systems, ensuring operational stability.

SKILLS

Trust & Safety – policy enforcement, community guidelines, escalations, risk assessment, content review.

Financial Analysis – performance analytics, financial modelling, scenario and sensitivity analyses, valuation.

Data Analytics Tools – Excel, Tableau, Power BI, Bloomberg, FactSet, Splunk, Dynatrace.
