PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Executed **pre-installation site surveys** and requirements gathering sessions with enterprise customers, developing detailed action plans to address unique operational needs.
- Performed **tool installations** at customer sites, including **light source and optical integration**, **wafer handler robot teaching**, and **camera calibration**, ensuring adherence to KLA specifications.
- Resolved complex system issues through **abstract thought** and the **seven-step problem-solving methodology**, minimizing downtime for critical production tools.
- Managed customer satisfaction by conducting routine update meetings, facilitating verification of tool performance, and coordinating warranty discussions.
- Provided **new product installation training** to worldwide customer support engineering teams, enabling them to effectively support new technologies.
- Collaborated with cross-functional engineering teams to troubleshoot and escalate system issues, ensuring timely resolution across regional customer deployments.
- Containerized and deployed **Java Spring Boot microservices** to an **AWS EC2** environment, managing configurations via **Jenkins** pipelines for automated rollouts.

SKILLS

Core Technologies – Linux, Windows, Unix, Novell

Engineering Disciplines – Optical, Mechanic, Electronic, Electro-mechanical, Electro-optical systems, Lithography, Metrology, Laser technology

Problem Solving – Seven-step problem-solving methodology, Abstract thought, Data analysis

Software & Systems – Java, Spring Boot, Python, SQL, PostgreSQL, Docker, AWS (EC2, S3, Lambda, CloudWatch), Jenkins, Git, Jira, Confluence

Business & Operations – Site surveys, Installation, Troubleshooting, Acceptance, Training, Customer satisfaction management, Escalation management, Process engineering, Yield management

PROJECTS

Enterprise System Integration and Automation (HCL Technologies)

- Developed **Python scripts** to automate data extraction and reporting from disparate enterprise systems, reducing manual effort for the operations team by approximately **40%**.
- Designed and implemented **REST APIs** using **Java Spring Boot** to facilitate data exchange between internal financial operations dashboards and ERP systems, improving data consistency across platforms.
- Authored comprehensive technical documentation and **runbooks** for critical production support procedures, streamlining incident response times for P1/P2 issues.

Data Visualization and Analytics Platform (MSc Project)

- Built interactive **Power BI dashboards** to visualize key performance indicators for a simulated retail sales dataset, enabling business stakeholders to quickly identify trends and anomalies.
- Applied **DAX measures** and **Power Query** for complex data transformations and calculations, improving the accuracy and performance of analytical reports.
- Modeled relational data structures within Power BI to support complex analytical queries and ensure data integrity for reporting purposes.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
