HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and implemented **Power BI dashboards** and **DAX measures** to visualize regulatory compliance metrics, translating complex data into actionable insights for senior leadership and regional compliance officers.
- Automated end-to-end compliance data solutions and governance controls using **Python scripting**, reducing manual intervention by approximately **40%** across key reporting workflows.
- Developed and maintained **scalable, audit-ready data models** using **SQL** and **dbt** to facilitate regulatory reporting and complex analytical queries, directly supporting frameworks such as AML and KYC.
- Managed **data pipelines** and workflow orchestration using **Airflow**, ensuring reliable data ingestion and transformation for regulatory analytics and decision-making processes.
- Coordinated **client data quality monitoring** for regulatory reporting, identifying and flagging data issues and partnering with internal teams to drive timely resolution and maintain data integrity for audits.
- Supported **ad-hoc data requests** for critical audits, regulatory exams, and day-to-day business needs, delivering accurate reports and insights under tight deadlines in a high-scrutiny environment.
- Containerized data pipeline components using **Docker** and deployed them to **AWS EC2** instances, ensuring efficient and scalable execution of data processing tasks.

SKILLS

Data Analysis & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Visualization, Statistical Analysis, A/B Testing, Time-Series Analysis

Programming & Scripting – Python, pandas, NumPy, scikit-learn, R, RStudio, SQL

Data Engineering & Orchestration – dbt, Airflow, ETL, Data Warehousing

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Git, Jenkins

Core Technologies – Java, Spring Boot, REST APIs, PostgreSQL, MySQL, Oracle, Linux, Jira, Confluence

PROJECTS

Regulatory Reporting Dashboard (MSc Project)

- Developed an interactive **Power BI dashboard** presenting key regulatory compliance metrics, including **AML** and **KYC** indicators, for a simulated financial services client.
- Engineered data models and ETL processes using **Power Query** and **SQL** to consolidate data from disparate sources, ensuring data integrity and facilitating complex analytical functions.
- Automated report generation and distribution for compliance stakeholders, reducing manual reporting effort by an estimated **30%**.

Automated Transaction Monitoring Pipeline (HCL Technologies)

- Built a **Python**-based data pipeline to ingest and process high-volume transaction data from multiple sources, identifying and flagging anomalous or potentially non-compliant activities for a financial services operations dashboard.
- Implemented **SQL queries** and **pandas** transformations to extract and enrich transaction data, calculating key risk indicators and generating alerts for operational teams.
- Integrated the pipeline with **Splunk** for enhanced logging and monitoring, enabling real-time operational visibility and faster incident response for the payments processing workflows.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
