PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Administered and optimized the **Genesys Cloud Contact Centre** platform, managing user provisioning, access controls, and security configurations for a 1,200-seat operation.
- Provided second and third-line support for business-critical applications, resolving an average of **45 incidents** per week within defined service level agreements.
- Monitored application performance and system health using **Splunk** and **Dynatrace**, proactively identifying and resolving performance bottlenecks that impacted user experience.
- Supported system integrations and data interfaces between enterprise applications, including data flow management across **PostgreSQL** and **Oracle** databases.
- Developed and maintained comprehensive application documentation and operating procedures, including detailed runbooks for incident response and disaster recovery scenarios.
- Coordinated and supported User Acceptance Testing (UAT) cycles for application upgrades and new feature deployments, ensuring business sign-off before go-live.
- Containerized multiple enterprise applications using **Docker** and managed deployments to **AWS EC2** instances, improving deployment consistency and reducing setup time by **30%**.

SKILLS

Contact Centre Platforms – Genesys Cloud, IVR Design, Workforce Management, Contact Centre Reporting

Application Administration – User Provisioning, Access Controls, Security Permissions, Configuration Management

Support & Operations – Incident Management, Problem Management, Change Management, Root Cause Analysis, Service Management Platforms (Jira, SysAid)

Cloud & Infrastructure – AWS (EC2, S3, CloudWatch), Docker, Linux, Shell Scripting

Databases & Integrations – SQL (PostgreSQL, MySQL, Oracle), REST APIs, Web Services

Reporting & Analysis – Power BI, DAX, Tableau, R, Python (pandas, NumPy), Data Modelling

PROJECTS

Enterprise Application Support & Enhancement (HCL Technologies)

- Managed production support for a financial-services client's operations dashboard, focusing on transaction monitoring and alerting for payment message failures, impacting approximately **5,000 daily transactions**.
- Automated routine reporting tasks and data validation processes using **Python scripting** and **SQL** across PostgreSQL and Oracle databases, reducing manual effort by **20 hours** per week.
- Implemented REST API integrations for cross-system data exchange between enterprise business systems and the core ERP, ensuring data consistency across modules.

Business Intelligence Dashboard Development (MSc Data Analytics)

- Developed interactive **Power BI** dashboards for business stakeholders, visualizing key performance indicators for sales and operations, including data models and DAX measures.
- Performed data extraction, transformation, and loading (ETL) using **Power Query** and **SQL** from disparate sources to build a unified data model for reporting.
- Applied statistical analysis techniques in **R** to identify trends and patterns within customer data, informing strategic business decisions.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
