PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed production incidents and SLA adherence for enterprise applications, performing root cause analysis using **Splunk** and **Dynatrace** to resolve P1/P2 issues within defined timeframes.
- Developed Python scripts to automate ETL processes for data ingestion and scheduled reporting, enhancing data availability for downstream analytics and business intelligence teams.
- Executed ad-hoc SQL queries and managed schema changes across PostgreSQL, MySQL, and Oracle databases for data validation and system integration tasks.
- Designed and implemented REST APIs using **Java Spring Boot** for new feature development and service integration within enterprise systems.
- Assessed technology and security controls across **Azure**, **AWS**, and **Microsoft 365** environments, identifying gaps against frameworks like **NIST CSF** and **CIS Controls**.
- Reviewed security incidents reported by **SIEM**, **EDR**, and **DLP** tools, and participated in simulated incident response exercises to refine operational procedures.
- Ensured third-party providers met their agreed controls and service level agreements through targeted assurance reviews and documentation verification.

SKILLS

Cloud Security – AWS, Azure, Microsoft 365, CloudWatch

Risk & Assurance – IT Risk, Assurance Reviews, Control Design, Control Evidence, Supplier Assurance, SLA Management

Frameworks & Standards – ISO 27001, NIST CSF, CIS Controls, ITIL, DORA

Security Tools – SIEM, EDR, DLP, Splunk, Dynatrace

Development & Scripting – Java, Spring Boot, Python, SQL, REST APIs, PostgreSQL, MySQL, Oracle

Operations & Infrastructure – Linux, Shell Scripting, Docker, Jenkins, Git

PROJECTS

IT Risk Control Assessment Framework (HCL Technologies)

- Developed a standardized assurance review process for critical IT controls, mapping requirements to **NIST CSF** and **ISO 27001** standards.
- Implemented automated checks for cloud resource configurations in **AWS** using Python scripts, identifying misconfigurations and compliance drift for **cloud security** assurance.
- Documented control gaps and remediation plans for a portfolio of enterprise applications, tracking progress with a cross-functional team to meet internal audit deadlines.

Production Incident Management & Response Enhancement (HCL Technologies)

- Engineered automated alert correlation logic within **Splunk**, reducing alert noise by approximately 40% and enabling faster identification of P1 incidents.
- Contributed to the development of runbooks and escalation procedures for critical Java Spring Boot services, improving incident response times by an average of 15%.
- Participated in on-call rotations, performing live troubleshooting and root cause analysis for production issues impacting a financial services operations dashboard.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
