PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided first and second-line technical support to over **200 staff**, resolving hardware, software, and **Microsoft 365** issues through an internal ticketing system.
- Administered and supported **Microsoft 365 applications** including Outlook, Teams, SharePoint Online, and OneDrive, managing user accounts, permissions, and shared mailboxes.
- Assisted with **Microsoft Entra ID (Azure AD) administration**, ensuring appropriate access controls and maintaining security configurations for over **150 user accounts**.
- Monitored IT systems and infrastructure using **Splunk and CloudWatch**, ensuring availability and data integrity, and logging system changes and incidents.
- Supported system upgrades and IT projects, including testing and implementation phases, contributing to the ongoing development of IT services.
- Contributed to digital transformation initiatives by identifying opportunities to improve internal processes and systems, enhancing organisational efficiency.
- Ensured IT practices adhered to **data protection**, confidentiality, and information security requirements, supporting regulatory compliance.

SKILLS

Microsoft 365 – Outlook, Teams, SharePoint Online, OneDrive, Entra ID, Azure Active Directory, Intune

IT Support – First-line support, Second-line support, Troubleshooting, Ticketing Systems, User Account Administration, Permissions Management, Hardware Support, Software Support

Operating Systems – Linux, Windows

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Development Tools – Git, Jenkins, Jira, Confluence

Scripting & Automation – Python, Shell Scripting

Database – SQL (PostgreSQL, MySQL, Oracle)

PROJECTS

IT Support Enhancement Project (HCL Technologies)

- Developed and implemented automated scripts in **Python** to streamline the process of user account creation and deactivation within the enterprise environment, reducing manual effort by approximately **30%**.
- Designed and deployed interactive dashboards using **Splunk** to monitor system health and application performance, providing real-time visibility to the operations team and reducing incident detection time by an estimated **15%**.
- Created comprehensive documentation and runbooks for common IT support issues and system configurations, aiding in faster resolution times and knowledge transfer for junior support staff.

Microsoft 365 Rollout Support (HCL Technologies)

- Provided dedicated technical support during a phased rollout of **Microsoft 365** services to a user base of over **500 employees**, addressing migration issues and application compatibility challenges.
- Assisted end-users with the configuration and troubleshooting of **Microsoft Teams** and **SharePoint Online**, ensuring seamless integration into their daily workflows and improving collaboration efficiency.
- Managed user access permissions and license allocation within the **Microsoft Entra ID (Azure AD)** environment, ensuring adherence to security policies and organizational standards.
