PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Collaborated with business stakeholders to plan future operational cost expenditure for upcoming financial years, translating strategic goals into actionable financial forecasts.
- Conducted monthly and quarterly financial reporting and analysis, delivering actionable insights into operational cost and investment expenditure to key stakeholders.
- Analyzed a range of cost accounts and investment projects, identifying deviations to plan and performing root-cause analysis to provide detailed commentary on actual figures.
- Implemented process improvements and automated routine tasks using **Google Sheets** and **Apps Script**, significantly reducing reporting time and enhancing output quality.
- Built and maintained strong relationships with key stakeholders across departments, ensuring alignment and support for major financial control initiatives.
- Provided tailor-made financial reports to stakeholders to increase cost focus and commercial understanding across different departments, supporting data-driven decision making.
- Containerized Java Spring Boot services for an internal financial reporting application and deployed them to an **AWS EC2** instance, managing dependencies and environment configurations.

SKILLS

Financial Systems – SAP BW, SAP FI, SAP BPC, SAP

Analytics & Reporting – Google Sheets, Apps Script, DAX, Power BI, Tableau, R, pandas, NumPy

Programming Languages – Python, Java, SQL, Apps Script

Frameworks & Libraries – Spring Boot, scikit-learn

Cloud Platforms – AWS (EC2, S3, Lambda, CloudWatch)

Databases – PostgreSQL, MySQL, Oracle

Development Tools – Git, Jenkins, Docker, Jira, Confluence

PROJECTS

Financial Reporting Automation with Google Workspace

- Automated the generation of monthly financial performance reports using **Google Sheets** and **Apps Script**, reducing manual effort by approximately 40%.
- Developed custom functions and macros within Google Sheets to perform complex calculations and data transformations required for operational cost analysis.
- Collaborated with the Finance department to gather reporting requirements and ensure the automated reports accurately reflected key performance indicators and cost deviations.

Cost Analysis Dashboard for Enterprise Systems

- Designed and developed an interactive dashboard using **Power BI** to visualize operational cost expenditure and investment project performance for enterprise business systems.
- Extracted and transformed data from multiple sources using **Power Query**, performing data modelling to create a unified view for analysis.
- Integrated key financial metrics and identified significant cost variances, providing actionable insights that supported strategic financial planning.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
