HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Analyzed raw data from multiple sources to identify key trends and patterns for business reporting.
- Supported business analysis activities by preparing datasets and generating preliminary reports for review.
- Assisted project teams by gathering information, compiling data, and drafting sections of project reports.
- Developed Python scripts to automate data extraction and transformation tasks, improving data preparation efficiency by **20%**.
- Performed ad-hoc data analysis using **SQL** across relational databases to support business inquiries.
- Constructed interactive **Power BI** dashboards visualizing key performance indicators and trends for senior management.
- Managed the lifecycle of **Jira** tickets, including defect tracking, status updates, and participation in Agile ceremonies.

SKILLS

Analytics & BI – Power BI, Tableau, DAX, Power Query, Data Modelling, Data Warehousing, Statistical Analysis, Exploratory Data Analysis, A/B Testing, Time-Series Analysis

Programming & Scripting – Python, R, SQL, pandas, NumPy, scikit-learn, Flask, FastAPI

Data Management – PostgreSQL, MySQL, Oracle, ETL

Tools & Methodologies – Excel, Jira, Confluence, Git, Jenkins, Agile, Scrum

Domain Knowledge – Business Analysis, Reporting, Project Support, Data Analysis

PROJECTS

Financial Operations Data Analysis Dashboard

- Developed a comprehensive **Power BI** dashboard to monitor key operational metrics for financial transactions, enabling faster identification of processing anomalies.
- Extracted and transformed transaction data from multiple sources using **SQL** and **Python** scripts, ensuring data integrity for reporting.
- Collaborated with business analysts to define reporting requirements and refine data visualizations, leading to a clearer understanding of transaction flows.

Automated Reporting System for Enterprise Data

- Created automated **Python** scripts to extract data from enterprise systems and generate scheduled daily and weekly reports.
- Implemented data validation checks within the scripts to ensure accuracy and consistency of the generated reports, reducing manual correction efforts.
- Utilized **SQL** to query and aggregate data from an Oracle database, forming the basis for the automated reports.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
