PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Supported commercial account leads by tracking and analysing **weekly sales figures** and **new product launches** across national accounts, contributing to brand presence growth.
- Assisted account managers in inventory forecasting by reviewing **promotional demand** and **product launch volumes**, identifying potential stock level adjustments.
- Conducted regular in-store retail visits across Dublin to monitor **brand execution**, **merchandising standards**, and competitor activity, providing on-the-ground insights.
- Participated in joint business planning by preparing **presentation decks** and **retail insight summaries** for external account meetings with key retail partners.
- Helped coordinate promotional activations across **cross-functional partners** in marketing, supply chain, and finance, ensuring alignment on campaign execution.
- Developed and maintained **SQL queries** to extract and validate sales data from enterprise systems, supporting analytical reporting and trend identification.
- Managed **production support** for enterprise applications, responding to P1/P2 incidents and ensuring service level agreements were met using **Splunk** and **Dynatrace**.

SKILLS

Commercial Analysis – Sales Figures Tracking, Promotion Analysis, Product Launch Volume Analysis, Inventory Forecasting, Retail Insights

Retail Operations – Brand Execution Monitoring, Merchandising Standards, Competitor Activity Analysis, In-Store Visits

Business Collaboration – Cross-functional Coordination, Marketing Alignment, Supply Chain Integration, Finance Partnership, Presentation Deck Preparation

Data & Analytics – SQL, Data Validation, Trend Analysis, Excel, Business Intelligence

Software Engineering Support – Production Support, Incident Response, SLA Management, Splunk, Dynatrace

PROJECTS

Retail Sales Performance Dashboard

- Developed a **Power BI dashboard** to visualise weekly sales figures, promotion performance, and new product launch volumes for commercial account leads.
- Integrated data from multiple enterprise sources using **Power Query**, performing data transformations to ensure accuracy and consistency for reporting.
- Created **DAX measures** to calculate key performance indicators such as sales growth rate and promotional uplift, enabling better strategic decision-making.

Inventory Forecasting & Demand Analysis Tool

- Built a Python script to automate the analysis of historical sales data, promotional impacts, and product launch volumes to support inventory forecasting.
- Implemented logic to identify seasonal trends and predict future demand based on past performance and planned marketing activities.
- Generated automated reports summarising forecast predictions and highlighting potential stock discrepancies for supply chain and finance teams.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
