PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and deployed **Rockwell/Allen Bradley PLC** logic for automated manufacturing sequences, ensuring adherence to precise operational parameters.
- Integrated **Siemens Desigo** building management system components with site control infrastructure, enhancing environmental monitoring capabilities.
- Maintained and troubleshot complex **SCADA** systems in a high-paced production environment, resolving over 15 critical incidents per quarter to minimize downtime.
- Collaborated with cross-functional teams to implement **IoT solutions**, specifically integrating **Sirus System Integrator** for real-time data acquisition.
- Documented comprehensive system configurations, update procedures, and troubleshooting guides for automation platforms, improving team knowledge transfer efficiency by **~30%**.
- Designed and tested **HMI** interfaces for improved operator interaction and control of automated processes, reducing user error rates by **18%**.
- Containerized automation control scripts using **Docker** and deployed them to an **AWS EC2** instance, enabling more reliable and repeatable execution.

SKILLS

Automation Platforms – Rockwell, Allen Bradley, Siemens Desigo, Sirus System Integrator, SCADA, HMI, PLC

Programming & Scripting – Python, Java, SQL

Cloud & DevOps – AWS, EC2, Docker, Git, Jenkins

Database & Data Handling – PostgreSQL, MySQL, Oracle, pandas, NumPy

Monitoring & Observability – Splunk, Dynatrace, CloudWatch

PROJECTS

Automated Manufacturing Control System Upgrade

- Engineered and deployed new **PLC** logic for a multi-stage assembly line, improving cycle time by **12%** through optimized control sequences.
- Developed custom **HMI** screens to provide operators with real-time status updates and fault diagnostics, reducing manual intervention needs.
- Integrated the upgraded system with existing **SCADA** infrastructure, ensuring seamless data flow for production monitoring and reporting.

Building Automation IoT Data Integration

- Designed and implemented a data pipeline using **Python** to ingest sensor data from **Sirus System Integrator** IoT devices.
- Configured **AWS Lambda** functions to process and route incoming data streams to a central logging system for analysis.
- Wrote shell scripts for automated deployment and monitoring of the data ingestion service on **Linux** servers.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
