HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Developed and maintained **Java Spring Boot** RESTful APIs for enterprise clients, handling approximately **1,500 requests per minute** during peak hours.
- Implemented robust data validation and error handling within **JPA** entities, ensuring data integrity for critical financial transactions across multiple microservices.
- Designed and coded reusable components and core logic in **Java EE**, adhering to established design patterns and achieving over **90% JUnit test coverage** for new modules.
- Contributed to the enhancement of regulatory reporting frameworks by collaborating with stakeholders to refine data extraction and transformation logic.
- Analyzed and improved the accuracy of **statistical reporting** by identifying data anomalies and implementing corrective measures, supporting evolving regulatory requirements.
- Participated in sprint planning and technical estimation sessions, providing input on the feasibility and complexity of implementing new reporting features.
- Containerized reporting services using **Docker** and managed deployments on **AWS EC2** instances, improving environment consistency and deployment speed.

SKILLS

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, JPA, Hibernate, pandas, NumPy, scikit-learn

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics – Power BI, Tableau, DAX, Power Query, Statistical Analysis

Tools & Methodologies – Jira, Confluence, Agile, Scrum, REST APIs

PROJECTS

Java Balance Sheet Reporting Service (HCL Technologies)

- Developed a **Java Spring Boot** microservice to aggregate and process balance sheet data from disparate sources, enabling faster regulatory reporting.
- Integrated **JPA** with a **PostgreSQL** database to manage financial data schemas and ensure transactional integrity for audit purposes.
- Implemented data transformation logic using **Python** scripts to prepare raw financial data for consumption by the reporting service.

Financial Data Visualization Dashboard (MSc Project)

- Built interactive **Power BI** dashboards to visualize key financial metrics and statistical trends for business stakeholders.
- Applied **DAX** measures and **Power Query** for data modeling and ETL processes, transforming complex datasets into actionable insights.
- Conducted exploratory data analysis using **R** to identify patterns and correlations within financial datasets.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
