PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Processed inbound customer calls, emails, and chats, ensuring high-quality interactions and timely responses for **enterprise software solutions**.
- Analyzed non-technical customer queries related to **SAP software functionalities**, researching and providing clear, actionable solutions to end-users.
- Evaluated the commercial impact of reported technical issues on customer business processes, prioritizing cases based on business continuity needs.
- Assisted and educated customers in navigating extensive **online support pages**, software download portals, and crucial license key management functions.
- Collaborated with global SAP teams, including engineers and product specialists, to ensure the effective and timely resolution of complex customer cases.
- Developed and maintained clear, concise documentation for support processes and common customer issues, reducing average case resolution time by **15%**.
- Managed and responded to customer inquiries across multiple communication channels, balancing workload to address approximately **45-55 cases per day**.

SKILLS

Customer Support – Inbound Calls, Email Support, Chat Support, Case Management, Technical Support, Customer Education

Software & Systems – SAP Software, Enterprise Software, Business Processes, Support Pages, License Management

Communication & Collaboration – English Fluency, German Fluency (B2), Cross-functional Collaboration, Multinational Teams, Stakeholder Communication

Productivity & Organization – Time Management, Prioritization, Multi-tasking, Shift Flexibility, Weekend Work

Technical Skills – SQL, Python Scripting, Java Spring Boot, REST APIs, AWS, Linux, Jenkins, Jira, Confluence, Splunk, Dynatrace, Power BI, Tableau, R, scikit-learn, PostgreSQL, MySQL, Oracle

PROJECTS

Customer Support Process Optimization for Enterprise Software

- Designed and implemented a new ticketing workflow within **Jira** to categorize and prioritize customer support requests based on business impact, improving triage efficiency by **20%**.
- Developed Python scripts to automate the generation of daily operational reports from **SQL databases**, summarizing key support metrics for management review.
- Contributed to creating a centralized knowledge base for common software issues, improving self-service resolution rates for customers by approximately **12%**.

Financial Services Operations Dashboard Enhancement

- Enhanced a **Java Spring Boot**-based payments operations dashboard by developing new REST APIs to integrate real-time transaction monitoring data from multiple sources.
- Wrote SQL queries against **PostgreSQL** to validate data integrity and support root cause analysis for failed payment messages, handling millions of transaction records.
- Collaborated with business analysts to gather requirements for new dashboard features, ensuring alignment with operational needs for transaction flow monitoring.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
