HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Designed and implemented **REST APIs** using **Java Spring Boot** for cross-service data exchange, incorporating request validation and circuit-breaker patterns to improve system resilience.
- Developed and maintained **Python scripts** for automating data extraction and transformation tasks, processing approximately **1.5 TB** of data weekly for downstream reporting.
- Managed production support for enterprise applications, responding to P1/P2 incidents and performing root cause analysis using **Splunk** and **Dynatrace** to meet strict SLAs.
- Documented requirements for agentic data onboarding workflows, translating user problems into detailed **feature specifications**, **acceptance criteria**, and functional requirements for automated data loading and quality checks.
- Collaborated with **UX designers** to gather feedback from Data Engineers and users on reviewing, editing, and approving agent outputs, ensuring user control within the onboarding process.
- Supported end-to-end delivery of assigned features by tracking onboarding time, approval effort, and data quality metrics, recommending backlog adjustments to improve efficiency.
- Containerized backend services using **Docker** and deployed them to an **AWS EKS** cluster, configuring basic resource limits and monitoring for predictable rollouts.

SKILLS

AI/ML – AI-led workflows, Agentic workflows, Responsible AI, Data Quality, LLM

Product Management – Product Management, Feature Specifications, Requirements Gathering, User Feedback, Product Backlog, Prioritization, Roadmaps, Agile Delivery, Launch Readiness, Performance Tracking

Data Engineering – Data Pipelines, ETL, Data Modelling, Databricks, Automated Data Loading, Data Quality Checks, Data Contracts, Semantic Layers

Programming Languages – Java, Python, SQL, R

Frameworks & Libraries – Spring Boot, Spring Cloud, Hibernate, JPA, pandas, NumPy, scikit-learn, FastAPI, Flask

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Kubernetes, Jenkins, Git, CI/CD

Databases – PostgreSQL, MySQL, Oracle

PROJECTS

AI-Assisted Data Onboarding Platform (HCL Technologies)

- Developed Python-based data pipelines to ingest and validate client data, integrating agentic workflows for initial processing and anomaly detection, handling up to **4,000 events per hour**.
- Designed and implemented core logic for automated data quality checks, reducing manual data validation effort by an estimated **30%** across onboarding batches.
- Built a FastAPI service to expose processed data to downstream applications, ensuring adherence to defined data contracts and semantic layer requirements.

Client Data Request Workflow Automation (MSc Project)

- Created a system to automate the generation and tracking of Client Data Requests (CDRs), integrating user feedback mechanisms for review and approval stages, impacting an estimated **50+ hypothetical client interactions**.
- Developed interactive dashboards in **Power BI** to visualize CDR status, processing times, and approval bottlenecks, aiding business stakeholders in identifying areas for process improvement.
- Documented the end-to-end workflow and proposed optimizations for agent-human collaboration, aiming to reduce manual intervention by **~40%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
