PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Executed certificate issuance, renewal, and revocation operations for enterprise digital certificates, managing the full lifecycle for over **5,000 certificates**.
- Performed routine health checks and monitoring of **PKI infrastructure components**, proactively identifying and addressing potential issues before they impacted service availability.
- Responded to and resolved **PKI-related incidents**, including certificate validation failures and trust chain issues, within defined SLA timeframes.
- Troubleshot certificate enrollment problems and investigated alerts from **PKI monitoring systems**, coordinating with application teams to restore services for affected systems.
- Documented incident root causes and implemented preventive measures for recurring certificate-related disruptions, reducing repeat incidents by **~15%**.
- Participated in a rotating on-call schedule to provide **24/7 support coverage** for critical PKI services, responding to urgent incidents during off-hours.
- Maintained operational documentation, including runbooks and standard operating procedures, supporting internal and external audit activities related to **PKI operations**.

SKILLS

PKI Technologies – X.509 Certificates, Certificate Authorities, Trust Hierarchies, Certificate Lifecycle Management, HSMs, CRL, OCSP

PKI Platforms – Microsoft ADCS, DigiCert, GlobalSign

Certificate Protocols – SCEP, CMPv2, ACME

Scripting & Automation – Python, PowerShell, Bash

Monitoring & Logging – Splunk, Logic Monitor, Grafana

IT Operations – Incident Management, SLA Management, IT Service Management (ITSM), ServiceNow, Jira Service Management

PROJECTS

Enterprise Certificate Lifecycle Automation

- Developed Python scripts to automate the renewal process for internal application certificates, reducing manual intervention by **~40%** and ensuring timely renewals for over **2,000 certificates**.
- Integrated certificate status checks into a CI/CD pipeline using Jenkins, providing automated alerts for expiring certificates nearing their expiration dates.
- Authored comprehensive runbooks detailing troubleshooting steps for common certificate validation failures and trust chain issues, facilitating quicker resolution by the operations team.

PKI Health Monitoring and Alerting System

- Configured Splunk dashboards to monitor key PKI infrastructure health metrics, including CA availability, CRL distribution points, and OCSP responder status, providing real-time visibility.
- Implemented Python-based automated checks for certificate expiration dates across critical services, cross-referencing with internal inventory to flag potential risks.
- Documented standard operating procedures for responding to alerts generated by the monitoring system, ensuring consistent and effective incident handling.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
