PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Configured and enhanced **Kinaxis Maestro** solutions to optimize supply chain planning processes, focusing on demand and inventory planning initiatives.
- Developed and modified **Kinaxis workbooks, worksheets, and crosstabs** to support complex supply chain planning scenarios and business rules.
- Collaborated with supply chain stakeholders to gather business requirements and translate them into effective **Kinaxis Maestro configurations** and solution designs.
- Supported data integration activities within **Kinaxis Maestro**, including data mapping, validation, and troubleshooting of scheduled data loads, ensuring data accuracy across systems.
- Investigated and resolved application issues in **Kinaxis Maestro** through root cause analysis and ongoing monitoring of system performance.
- Contributed to platform performance optimization and maintained system reliability for enterprise planning solutions, ensuring adherence to SLAs.
- Partnered with technical teams to support integrations and ensure data accuracy across connected systems within the supply chain planning platform.

SKILLS

Supply Chain Planning – Kinaxis Maestro, RapidResponse, Demand Planning, Supply Planning, Inventory Optimisation, Network Planning, DRP, MPS, Capacity Planning

Configuration & Development – Workbooks, Worksheets, Crosstabs, Profile Variables, Expressions, Business Rules

Data Management – Data Integration, Data Mapping, Data Validation, Scheduled Data Loads, ETL Processes, Data Quality

Analysis & Support – Root Cause Analysis, Application Issue Resolution, System Monitoring, Performance Optimisation, Troubleshooting

Methodologies – Agile, Iterative Delivery, Software Development Lifecycle, Change Management

Cloud & Integration – APIs, System-to-System Integrations, AWS, Docker

PROJECTS

Supply Chain Planning Configuration for Enterprise Client

- Configured **Kinaxis Maestro** modules for demand planning and inventory optimisation for an enterprise client, mapping business requirements to system functionalities.
- Built custom **Kinaxis worksheets and expressions** to provide enhanced visibility into inventory levels and forecast accuracy, directly supporting client operational teams.
- Supported data validation and troubleshooting for scheduled data loads into the **Kinaxis Maestro** platform, ensuring consistency for reporting and planning activities.

Inventory Optimisation Workbook Development

- Developed interactive **Kinaxis workbooks** to visualise key inventory metrics, including safety stock levels and replenishment triggers, for a large distribution network.
- Implemented **business rules and profile variables** within Kinaxis Maestro to automate the calculation of optimal inventory parameters based on demand variability and lead times.
- Collaborated with business analysts to refine the **Kinaxis workbook** based on feedback, enhancing its utility for supply chain planners and reducing manual data analysis time by approximately 30%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
