HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India

Sep 2021 – Jan 2025

- Administered and operated **Identity Governance and Access Management (IGA) solutions**, ensuring user access aligns with security policies and Zero Trust objectives for enterprise systems.
- Investigated and resolved complex **access-related issues**, workflow failures, and data discrepancies impacting user lifecycle management (Joiner, Mover, Leaver) processes.
- Supported **access certification campaigns** by validating data, tracking remediation efforts, and preparing evidence for audit and compliance activities.
- Participated in onboarding new applications to identity governance platforms, meticulously documenting **access requirements** and integration points.
- Analyzed identity and access data using **Python and SQL** to identify risks, inconsistencies, and opportunities for process improvement, enhancing data quality.
- Developed and maintained **technical documentation, procedures, and operational support materials** for IAM/IGA processes, reducing onboarding time for new team members by an estimated 15%.
- Collaborated with cybersecurity, infrastructure, and business teams to implement process improvements and test platform enhancements for **identity security technologies**.

SKILLS

Identity & Access Management (IAM) – Identity Governance, Access Reviews, Provisioning, Deprovisioning, User Lifecycle Management, Role-Based Access Control (RBAC)

Cybersecurity Principles – Authentication, Authorization, Least Privilege, Access Controls, Risk Management, Zero Trust

Scripting & Automation – Python, SQL, PowerShell, Excel

Enterprise Systems – Operating Systems, Directories, Cloud Platforms, Applications, Security Tools

Testing & Analysis – Functional Testing, Regression Testing, Integration Testing, API Testing, Defect Management, Root Cause Analysis, Data Analysis

Documentation & Compliance – Technical Documentation, Operational Procedures, Audit Evidence, Compliance Reporting

PROJECTS

Identity Governance Rollout for Enterprise Applications

- Assisted in the rollout of an **identity governance platform** to manage user access for 5 key enterprise applications, focusing on joiner/mover/leaver workflows.
- Developed Python scripts to automate the extraction and transformation of user access data from disparate systems, improving data accuracy for **access reviews** by 20%.
- Documented detailed access requirements and tested role provisioning/deprovisioning logic within the new IGA solution, ensuring alignment with **least privilege** principles.

Automated Access Audit Evidence Generation

- Engineered a Python-based automation tool to collect and format evidence for quarterly **access certification** campaigns, reducing manual effort by approximately 30 hours per campaign.
- Integrated with PostgreSQL databases to query user roles and permissions, generating reports that were used by business stakeholders to validate access controls.
- Designed the reporting output to directly support **audit and compliance activities**, ensuring all required control validation evidence was readily available.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin

Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
