PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Defined solution architectures for enterprise-wide transformation initiatives focused on vendor and customer incentives, aligning business objectives with technology strategies and enterprise standards.
- Partnered with business stakeholders to redesign processes and implement best-practice operating models for rebates, pricing, and incentives.
- Evaluated and incorporated **AI**, **automation**, and **cloud technologies** to improve efficiency and scalability in incentive processing.
- Drove **SAP Vistex V4** and **SAP S/4HANA** solution design for rebates, pricing, and incentives capabilities, ensuring alignment with business requirements.
- Developed business cases, **ROI analyses**, and value realization frameworks, presenting executive-level recommendations for incentive program enhancements.
- Maintained architecture artifacts, roadmaps, and governance standards across the solution landscape for incentive-related systems.
- Containerized incentive processing services using **Docker** and deployed them to a cloud environment, configuring basic resource limits for predictable rollouts.

SKILLS

Enterprise Solutions & Architecture – Solution Architecture, Business Transformation, Enterprise Standards, Roadmaps, Governance

SAP & Incentives – SAP Vistex V4, SAP S/4HANA, Vendor Incentives, Customer Incentives, Rebates, Pricing, Chargebacks, Contract Management

AI & Cloud – AI, Automation, Cloud Technologies, Scalability

Business Analysis & Strategy – Business Cases, ROI Analysis, Value Realization, Executive Presentations, Process Redesign, Operating Models

Core Technologies – Docker, Java Spring Boot, Python, SQL, REST APIs, AWS, Jenkins, Git, Linux

PROJECTS

Enterprise Incentive Platform Architecture

- Designed a scalable architecture for a new enterprise-wide incentives platform, integrating vendor rebates and customer pricing modules.
- Mapped out system integrations using **Java Spring Boot** and **REST APIs**, ensuring seamless data flow between core ERP and incentive management systems.
- Developed comprehensive architecture diagrams and documentation for stakeholder review, detailing data models and proposed cloud deployment strategy.

Automated Incentive Reporting Solution

- Developed automated reporting solutions using **Python** and **SQL** to extract and process incentive data from disparate sources.
- Built interactive dashboards in **Power BI** to visualize key performance indicators for incentive programs, supporting business stakeholder decision-making.
- Implemented data validation and cleansing routines in **Power Query**, improving data accuracy for over 50 distinct incentive reports.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
