PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Investigated and resolved application issues within live production environments for **ERP systems**, custom applications, and business integrations, maintaining system stability.
- Executed **SQL queries**, including joins and subqueries, to investigate data discrepancies, validate transactions, and troubleshoot complex application issues across various systems.
- Tested and troubleshot **REST and SOAP APIs** using Postman, analyzing JSON and XML data flows to diagnose integration problems.
- Monitored and troubleshot **B2B integrations**, automated data feeds, and scheduled processes, ensuring reliable data exchange between systems.
- Managed incidents, service requests, and changes through an **ITSM platform**, ensuring adherence to ITIL processes and maintaining accurate records.
- Collaborated with developers, business analysts, and third-party vendors to resolve complex technical issues, facilitating efficient cross-team problem-solving.
- Wrote and maintained **Python scripts** to automate repetitive tasks, process data feeds, and generate scheduled reports, improving operational efficiency by an estimated **15%**.

SKILLS

ERP Support – ERP systems, Infor M3, CloudSuite, ION, SAP, Dynamics 365, Oracle

API & Integrations – REST, SOAP, JSON, XML, Postman, B2B integrations

Database & SQL – SQL, joins, filtering, subqueries, data investigation, data validation

Scripting & Automation – Python, PowerShell, Bash

Monitoring & ITSM – Azure Application Insights, New Relic, Splunk, Dynatrace, Freshservice, Jira, Confluence, ITIL

Core Technologies – Java Spring Boot, .NET, AWS, Docker, Linux

PROJECTS

ERP System Integration & Support Enhancement

- Developed and maintained **Python scripts** to automate data validation checks for critical ERP integration points, reducing manual effort by approximately **20 hours per month**.
- Assisted in the investigation and resolution of complex issues within a live production **ERP system**, performing deep dives with SQL to pinpoint data inconsistencies.
- Documented troubleshooting steps and common integration failure modes for the internal knowledge base, improving the onboarding time for new support analysts by an estimated **10%**.

API Integration Troubleshooting Framework

- Designed and implemented a standardized troubleshooting framework for **REST APIs**, incorporating Postman collections and detailed data flow diagrams for common B2B integrations.
- Investigated and resolved issues related to **JSON and XML data transformations** between interconnected enterprise applications, ensuring data integrity across systems.
- Collaborated with external vendors to test and validate API endpoints, successfully resolving **3 critical integration bugs** within the first quarter of implementation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
