PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Provided remote and onsite technical support for customer infrastructure, networks, servers, and Microsoft 365 environments, ensuring reliable operation.
- Installed, configured, and maintained Windows Servers, virtual environments, and networking equipment, resolving complex technical issues.
- Administered Microsoft 365 and Exchange Online, managing user accounts, mail flow, and security settings to maintain service integrity.
- Supported backup, disaster recovery, and business continuity solutions, developing and testing recovery plans to safeguard client data.
- Monitored systems proactively, performing maintenance and recommending improvements to enhance performance and security posture.
- Applied security best practices, including patching, access controls, and MFA implementation, to protect customer IT environments.
- Managed competing priorities and worked independently to deliver a reliable support service to customers and internal teams.

SKILLS

Operating Systems – Windows Server, Windows Desktop, Linux

Cloud & Virtualisation – Azure, Hyper-V, VMware, AWS (EC2/S3/Lambda/CloudWatch)

Networking – TCP/IP, VLANs, Routing, Firewalls, VPNs

Microsoft 365 – Exchange Online, Active Directory, DNS, DHCP, MFA

Support & Infrastructure – IT Support, Infrastructure Engineering, Backup Technologies, Disaster Recovery, Business Continuity, Endpoint Security, Network Monitoring

Scripting & Automation – Python, Shell Scripting

PROJECTS

Customer Infrastructure Support and Maintenance

- Supported a diverse range of customer IT infrastructures, including servers, networks, and end-user devices, diagnosing and resolving hardware and software issues.
- Managed the installation and configuration of new server hardware and virtual environments across multiple client sites, ensuring seamless integration with existing systems.
- Developed Python scripts to automate routine system checks and reporting tasks, reducing manual intervention by approximately 20% for the support team.

Microsoft 365 and Network Security Implementation

- Administered Microsoft 365 tenant for enterprise customers, including user provisioning, security policy enforcement, and email migration support.
- Configured and maintained network security devices such as firewalls and VPNs, ensuring secure remote access and data protection for client networks.
- Implemented multi-factor authentication (MFA) across user accounts, significantly strengthening access controls and reducing unauthorized login attempts.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
