PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Designed and maintained **Power BI dashboards** and **analytical tools** to translate complex financial and client data into clear narratives and actionable recommendations, supporting senior stakeholder decision-making.
- Developed expertise in client performance, product metrics, and **management reporting**, ensuring accuracy and appropriateness for audiences including internal committees and **Board reporting**.
- Collaborated with IT and data owners to enhance **data quality**, validation, and governance, successfully transitioning **manual processes** towards more scalable automated solutions.
- Managed key analytical workstreams from problem definition and **requirements gathering** through to delivery, independently prioritizing milestones and timelines for multiple concurrent projects.
- Built and maintained strong relationships with key stakeholders across Product, Investments, Finance, Operations, IT, and Risk, facilitating collaborative efforts to achieve shared objectives.
- Improved client experience by analysing client needs, behaviours, and pain points, translating these into practical insights, tools, and solutions for enhanced product development and client outcomes.
- Containerised and deployed analytical microservices on **AWS Lambda**, processing approximately **3,500 events per second** during peak hours and replacing a less efficient batch processing system.

SKILLS

Data Visualization & BI – Power BI, Tableau, DAX, Power Query, BI Dashboards

Programming & Scripting – Python, Java, SQL, R

Cloud & DevOps – AWS (EC2, S3, Lambda, CloudWatch), Docker, Jenkins, Git

Data Analysis & ML – pandas, NumPy, scikit-learn, Statistical Analysis, Data Warehousing

Financial Domain – Client Reporting, Product Development, Financial Markets, Investment Products, Management Information

Project & Stakeholder Management – Requirements Gathering, Agile Methodologies, UAT, Cross-functional Collaboration, Stakeholder Engagement

PROJECTS

Client Insights Dashboard Suite (MSc Data Analytics)

- Developed a suite of **Power BI dashboards** to visualize client behaviour and product performance metrics for a hypothetical financial services firm, enabling data-driven strategic decisions.
- Implemented complex **DAX measures** and data models to support interactive drill-downs and detailed analytical exploration of client interaction data, covering over **50,000 customer records**.
- Automated ETL processes using **Power Query** to consolidate data from disparate sources, ensuring timely and accurate reporting for business stakeholders.

Automated Transaction Reconciliation System (HCL Technologies)

- Engineered a **Python**-based system to automate transaction reconciliation workflows for a financial services client, significantly reducing manual effort and improving accuracy.
- Developed **SQL scripts** for data extraction and validation against PostgreSQL and Oracle databases, processing approximately **1.5 million transaction records** weekly.
- Integrated the reconciliation engine with existing operational alerting mechanisms, reducing the time to identify discrepancies by an estimated **40%**.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
