HARIRAMAKRRISHNAN RAMACHANDRAN

+353 89 970 6156 • hariramakrrish@gmail.com • Dublin, Ireland • **Stamp 1G — Full-Time Work Eligible**

PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Architected and deployed cloud-native solutions on **Azure** for enterprise clients, integrating **AI services** to enhance business intelligence and operational efficiency.
- Designed and executed technical architecture for customer projects, leading pilots and proofs of concept to demonstrate value and accelerate adoption of Microsoft cloud and AI solutions.
- Collaborated with customer technical decision-makers and internal stakeholders to gather business and technical requirements, translating them into actionable architecture designs and implementation plans.
- Resolved complex technical blockers in customer environments by configuring services, providing sample code, and coordinating with specialized product and support teams.
- Developed and delivered technical training sessions and demonstrations to educate customers on Microsoft cloud and AI capabilities, fostering broader solution adoption.
- Built and maintained reusable demonstration assets and solution templates, adapting them to specific customer needs and providing thought leadership in technical architecture design.
- Containerized and deployed microservices using **Docker** and orchestrated them on **Azure Kubernetes Service (AKS)**, managing configurations and resource allocation for predictable performance.

SKILLS

Cloud Platforms – Azure, Azure Kubernetes Service (AKS), Azure AI Services, AWS, EC2, S3, Lambda, CloudWatch

Programming Languages – Python, Java, SQL, R

Frameworks & Libraries – Spring Boot, pandas, NumPy, scikit-learn, Flask, FastAPI

DevOps & CI/CD – Docker, Jenkins, Git, Linux, Shell Scripting

Databases – PostgreSQL, MySQL, Oracle

BI & Analytics Tools – Power BI, Tableau, DAX, Power Query

Methodologies – Agile, Scrum

PROJECTS

AI-Powered Customer Insights Platform (HCL Technologies)

- Developed Python data pipelines to ingest and process diverse customer data sources, preparing them for **AI model** training and analysis.
- Engineered a **Power BI dashboard** that visualized key customer trends and predictive analytics, enabling business stakeholders to make data-informed decisions.
- Implemented a REST API using **FastAPI** to serve model predictions, integrating with an existing enterprise application to provide real-time insights.

Cloud Solution Architecture for Financial Services (HCL Technologies)

- Designed a cloud-based architecture on **AWS** for a financial services operations dashboard, focusing on scalability and reliability for transaction monitoring.
- Collaborated with client operations teams to define success metrics and gather requirements for implementing new alerting and reconciliation features.
- Developed automation scripts in **Python** for data validation and report generation, streamlining operational workflows and reducing manual intervention.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
