PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Managed the end-to-end delivery of an IT/OT integration project, defining scope, schedule, and resource allocation to ensure successful handover to support teams.
- Coordinated with cross-functional teams including engineering, operations, and IT security to align project objectives and delivery plans for a new plant network deployment.
- Led requirements gathering sessions for OT systems integration, translating operational needs into technical specifications for SCADA and MES systems.
- Ensured safety and compliance requirements were embedded throughout the project lifecycle, including rigorous change control processes and operational readiness checks.
- Managed vendor performance and procurement activities, defining statements of work and acceptance criteria for system integrator deliverables.
- Executed testing and commissioning activities, including FAT/SAT, and oversaw the generation and approval of all necessary project documentation.
- Implemented automated testing workflows for IT/OT integrations using **Python** and **Jenkins**, reducing manual testing effort by **40%**.

SKILLS

Cloud/DevOps – AWS, EC2, S3, Lambda, CloudWatch, Docker, Jenkins, Git

Programming – Java, Spring Boot, Python, SQL, R

Databases – PostgreSQL, MySQL, Oracle

Monitoring/Observability – Splunk, Dynatrace

Project Management/Methodologies – Agile, Scrum, Change Management, ITIL

OT/Industrial – PLC, SCADA, MES, Industrial Control Systems, Plant Networking

PROJECTS

IT/OT Integration for Manufacturing Execution System

- Developed a **Python**-based data pipeline to integrate shop floor data from **SCADA** systems with an enterprise **MES** platform, enabling real-time production monitoring.
- Designed and implemented REST APIs using **Java Spring Boot** for seamless data exchange between IT enterprise applications and OT operational technology systems, ensuring data consistency.
- Containerized the integration services using **Docker** and deployed them to an **AWS** environment, establishing CI/CD pipelines with **Jenkins** for automated deployments.

Automated Compliance Reporting for Regulated Environments

- Built automated **Python** scripts to extract and aggregate data from various systems, generating compliance reports required for **FDA** regulated environments.
- Developed interactive dashboards using **Power BI** to visualize compliance metrics and trends, providing stakeholders with actionable insights and improving audit readiness.
- Managed the change control process for report modifications and system updates, ensuring adherence to GAMP guidelines and maintaining detailed documentation.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
