PROFESSIONAL EXPERIENCE — 3.5 YEARS

Software Engineer — HCL Technologies, Chennai, India Sep 2021 – Jan 2025

- Coordinated material availability for production schedules and customer requirements by developing and maintaining supply plans using **ERP planning systems**.
- Monitored inventory performance and proactively managed risks related to shortages and excess stock by analyzing **supply continuity data**.
- Collaborated with suppliers to track deliveries, manage lead times, and improve supply performance, ensuring timely receipt of critical components.
- Partnered with procurement, production, customer service, and logistics teams to ensure smooth supply chain operations and timely order fulfillment.
- Reviewed demand and supply information to support effective planning decisions, identifying potential imbalances and recommending adjustments.
- Contributed to **continuous improvement projects** focused on enhancing planning processes and operational efficiency, implementing system setting updates.
- Maintained accurate planning data, system settings, and supply parameters within **ERP systems**, ensuring data integrity for planning functions.

SKILLS

Supply Chain Planning – Supply Plans, Inventory Management, Supplier Relationship Management, Lead Times, Demand Review, Supply Review

ERP Systems – SAP, Oracle, Planning Systems

Data Analysis – Excel, Data Interpretation, Risk Management, Data Integrity

Operations – Production Schedules, Customer Requirements, Procurement, Logistics, Operational Efficiency

Process Improvement – Continuous Improvement Projects, System Settings, Planning Processes

PROJECTS

ERP System Data Migration & Validation (HCL Technologies)

- Migrated critical planning data, including supply parameters and inventory levels, from legacy systems to a new **ERP platform**.
- Developed Python scripts for automated data validation and reconciliation, ensuring accuracy and consistency across migrated datasets for ~5,000 planning records.
- Collaborated with business analysts to define data mapping rules and troubleshoot discrepancies, supporting a smooth transition for the finance operations team.

Inventory Optimisation Dashboard (HCL Technologies)

- Developed an interactive dashboard using **Power BI** to visualize inventory levels, stock aging, and potential shortage risks for enterprise customers.
- Created **DAX measures** to calculate key performance indicators such as stock turnover rate and days of supply, providing actionable insights.
- Automated data extraction and transformation processes using **Power Query** from multiple SQL databases, reducing manual reporting effort by 30%.

EDUCATION

M.Sc. Data Analytics — National College of Ireland, Dublin Feb 2026

B.E. Computer Science — SNS College of Technology, Coimbatore, India 2021

CERTIFICATIONS

- IELTS Academic: Overall Band Score **7 out of 9**, issued by IELTS Official, Test Date: 28/AUG/2023
- **Full Stack: Java Spring Boot** and Angular (Great Learning)
- Certificate of Completion in Web Development from **University of California**, Davis (Coursera)
- Certificate of Completion in Python programming from **University of Michigan** (Coursera)
